Welcome You

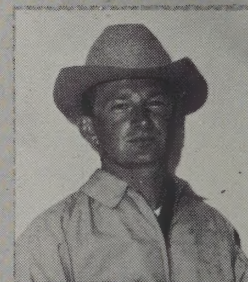

BOB DRAPER

JOHN DRAPER

MAC DRAPER

BOB DUNCAN

In March of this year I had the honour to attend the Canadian Agricultural Congress at Ottawa on the invitation of the Federal Minister of Agriculture, representing the Canadian Joint Beef Breeds Association. This congress reviewed the papers presented by the Federal Task Force on all phases of agricultural production. It was most apparent that the production of beef is one of the few bright spots in Canadian agriculture, and one of the papers presented concluded with the statement "That the future of the beef industry on this continent is very bright, especially for the producer of feeder cattle in Canada."

While there are limiting factors in bringing about the necessary increase in numbers of beef cattle that are going to be required in the future, there is no doubt that Shorthorns of the right type can be an important factor in this development.

The consignors to this sale are to be congratulated for the leadership they are contributing to reinstate Shorthorns to their rightful place in the beef industry. Their foresight and diligence is most commendable and merits the consideration of all progressive breeders.

NORMAN D. HOGG
President
Canadian Shorthorn Ass'n

The men involved in this sale have long known that the beef cattle industry would soon demand cattle of extra size, with polled heads and backed by undeniable performance. They have been breeding for these features for years.

Now that day has arrived and dozens of leading breeders are turning to their Polled Shorthorns to satisfy that demand.

No group of men is more enthusiastic. They are sound cattlemen who make their living strictly from their land and their cattle. They have a product much in demand not only because theirs are the cattle of the future but also because of their unfailing integrity.

Anyone who seriously wants to improve his position in the Shorthorn and Polled Shorthorn business should make it a point to visit their farms. Sale weekend is an ideal opportunity. These will be the first men to admit that today's changes in the cattle business are controversial, and they're eager to exchange ideas with you. They maintain close contact with the commercial cattle business. They can tell you how they feel registered Shorthorns must be bred to compete in the feedlots and ranges of North America.

Be there on sale weekend. You find the cattle second to none. Even more important, you can study first-hand the operations of some of the most progressive men in the business.

HARRIS SIMONS
The Shorthorn World

GENERAL SALE INFORMATION

TIME: The sale will begin at 12 noon Saturday, June 14, 1969, at Thomas Farms near Hartney, Manitoba, Canada.

LOCATION: Thomas Farms is located seven miles southwest of Hartney, Manitoba. From Hartney take Highway 21 south four miles to Lauder Road (No. 345). Then travel west three miles. Thomas Farms is on the south side of the road.

TRANSPORTATION: The farm is 50 miles from Brandon, Man., which is easily reached by both air and rail. See complete details on page 6.

HOTEL ACCOMMODATIONS: Sale headquarters will be the North Hill Motel, Brandon, Man. Reservations may be made direct or to Harris Simons, sale manager, or to Bob Gordon, Kinnaber Stock Farm, Souris, Man. A large block of rooms has been reserved at the North Hill. After they have been filled, reservations will be made for you at other nearby motels. See page 6 for complete information.

AUCTIONEERS: Jock Blacklock, Saskatoon, Sask., and Paul Good, Van Wert, Ohio.

GUARANTEE: All cattle will be sold under the standard guarantee endorsed by the American Shorthorn Ass'n. The consignors further guarantee every animal to meet the complete satisfaction of the new owner provided proper care is given.

HEALTH: All cattle selling will comply with the health regulations of the Province of Manitoba. The herds are all in a tuberculosis and brucellosis free area. The most stringent herd health standards are maintained and all cattle will be available for export about five days following the sale.

TERMS: The terms of the sale are cash. Cheques should be handed to the clerks immediately following the auction. Please be sure to have the clerks record your transfer instructions and shipping information at the time of purchase.

EXCHANGE: The bidding will be conducted in Canadian funds. The prevailing exchange rate will be allowed, which is generally about seven per cent. In other words, the U.S. dollar in Canada is worth about \$1.07 due to exchange differential.

LIABILITY: The consignors to this sale, and their employees, accept no liability for accidents that may occur. Mishaps at cattle sales are very rare, but all attending must do so at their own risk. The sale manager and his staff, the auctioneers, ringmen and clerks were employed by the owners for specific promotional and clerical tasks and have no connection with the handling of the cattle, the condition of the premises, fulfillment of guarantees or status of health papers. The sale of each animal constitutes a contract between the buyer and the seller of each lot, but the sale manager cannot be responsible for the fulfillment of that contract. Where footnotes appear in the catalogue, they were written by the owners or employees of the herds selling, or from information provided by them.

LUNCH: Lunch will be provided on sale day by the women of the Lauder Church. They will also provide coffee and light refreshments the day before the sale.

BARBECUE DINNER: Barbecue dinner will be prepared by Jim Moffat and served to all our guests at the Souris Golf & Country Club, 1 mile South on Highway 22 and 1 mile East of Souris, the night before the sale. The reception will be from 6 to 7 p.m. with the barbecue from 7 to 9 p.m.

FURTHER INFORMATION: The owners of any of the farms selling, or the sale manager, will be happy to give you their critical appraisal of any of the cattle selling. A supplemental sheet will be provided on sale day listing breeding dates and other vital information. All announcements from the auction block supersede any other information, either written or oral.

MAIL BIDS: We hope it will be possible for you to be at the sale. If not, mail or telephone bids may be directed to any of the following:

E. H. Stoltz, executive secretary, Canadian Shorthorn Ass'n, Gummer Building, Guelph, Ontario, Canada. Tel: (519) 822-6841.

Harris Simons, The Shorthorn World, 16 S. Locust St., Aurora, Ill., 60506. Tel: (312) 896-8511.

C. D. Swaffar, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb. Tel: (402) 393-7200.

Dwayne Dietz, The Drovers Journal, 105 South St., Harrisonville, Mo. Tel: (816) 842-5980.

Albert J. Hamann, Rock Rapids, Iowa. Tel: (712) 472-8676.

Gene McDonald, The Shorthorn World, 16 S. Locust St., Aurora, Ill. Tel: (312) 896-8511.

Bill Hieft, Montana Farmer-Stockman, Great Falls, Mont. Tel: (406) 453-7696.

C. K. Tomson, Harding & Harding Livestock Insurance, Geneva, Ill. Tel: (312) 232-2100.

Wilf Davis, Manitoba Beef Cattle Fieldman, Dauphin, Man. Tel: (204) 638-3739.

TELEPHONES: On sale day call Ross Thomas, 341-2, Hartney, Man. Other telephone numbers are Bob Gordon, 813-2, Souris, Man.; C. S. Thomas, 4, Hartney; John Draper, (204) 769-2361, Elgin, Man.; Mac or Bob Draper, (204) 769-2371, Elgin.

INSURANCE: Insurance will be available from the clerks and we strongly recommend that you insure your purchases for full value until they are delivered.

DELIVERY: Free delivery will be made to individuals who purchase either \$5,000 or four head in the sale. Group shipments will be made free of 10 head or more to central points within 1,000 miles of the sale. The four herds selling all have trucks moving at various times throughout the continent and each will be happy to cooperate in arranging the most economical possible group shipment. Many of the cattle will be retained for breeding or shows. Arrangements for their delivery may be made with the owners following the sale. A condition of the delivery offer is that the owners accept no liability for the safety of the cattle, and they strongly urge that you insure your purchases. Written instructions giving driving directions from the nearest major highway must be left with the clerks on sale day.

SHOW RIGHTS: Each of the herds selling reserves the right to select members of its show herd from the sale offering without further announcement.

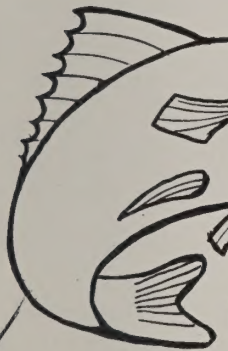

PEDIGREES: The new owners will receive pedigrees properly transferred in the Canadian Shorthorn Herd Book. Further transfer to herd books of other countries is at the expense of the new owners. In the case of Americans, when they receive the Canadian pedigree, it should be mailed to the American Shorthorn Ass'n with a request that an American pedigree be issued. The charge is \$10 a head if the work is completed within six months of the date of sale.

HARRIS SIMONS, Sale Manager

16 S. Locust St., Aurora, Ill. 60506

Tel: (312) 896-8511

It's Western Barbecue Time!

Bring Your Fishing Pole

Some of the world's best fishing is to be found in the hundreds of lakes north of the sale. Come early and make a vacation trip of it. The famed fishing grounds of Riding Mountain National Park are only 70 miles north of Brandon, Man., and the Flin Flon fishing resort is about 250 miles north. Many other well-stocked lakes are nearby.

The sale is located 60 miles north of the beautiful Peace Gardens on the Canadian-United States border. You will want to stop there for at least an afternoon.

Western Canada has long been known for its unique barbecues and we're planning a big one for all our guests. Jim Moffat, who is well-known to Shorthorn and Polled Shorthorn breeders, will be in charge. The reception will be from 6 to 7 p.m. at the Souris Golf & Country Club, 1 mile South on Highway 22 and 1 mile East of Souris. Barbecue dinner will follow from 7 to 9 p.m. In mid-June it doesn't get dark in Western Canada until about 10 p.m., so you'll have plenty of time to spend with your friends from throughout the country.

Hotel Accommodations

Sale headquarters is the North Hill Motel, Box 265, Brandon, Manitoba, Canada. It is at the north edge of Brandon near the airport. Reservations may be made directly to the hotel, mentioning that you are attending this sale. You may also make reservations to the sale manager or to Bob Gordon, Kinnaber Stock Farms, Souris, Man. Although a large block of rooms has been reserved, they will not accommodate everyone. When these rooms have been filled, other reservations will be made nearby. We also recommend the following:

1 & 10 Motel, Brandon, Man.
Twin Pines Motel, Brandon
Barney's Motel, Brandon
Prince Edward Hotel, Brandon
Boissevain Inn, Boissevain, Man.
Souris Gordon Hotel, Souris, Man.
Hartney Hotel, Hartney, Man.

Transportation

To reach Thomas Farms from the North Hill Motel, go one-half mile north to No. 1 Highway. Then go west about 30 miles to Highway 21. Turn south on 21 and go about 12 miles to the point at which 21 joins Highway 2. Continue three miles west on 2 and 21, go around Hartney on the bypass and continue 13 miles south to Lauder Road (Highway 345). Go west on 345 three miles to Thomas Farms. From Hartney, drive four miles south on Highway 21 to Lauder Road (No. 345) and then go three miles west.

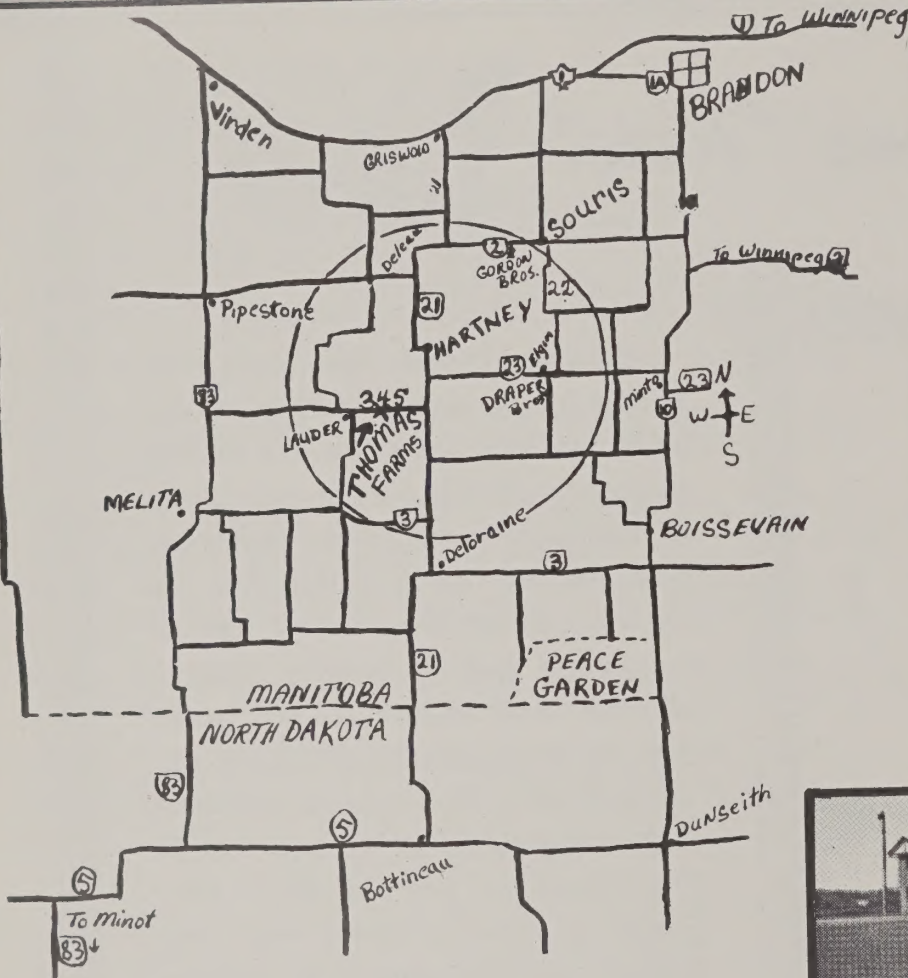

Good air and rail transportation are available to Winnipeg and then on to Brandon. Given advance notice, we'll be happy to meet your plane or train in Brandon. If you would prefer a rental car, they are available. Since the supply is limited, we suggest you reserve your car in advance.

Minot, N.D., is a two-hour drive from the farm and has good air service, particularly for those coming from the western United States. Rental cars are also available there, or we will meet you if advance notice is given. Please do not wait until you arrive at the air terminal before notifying us.

The farm is just 50 miles from Brandon, 50 miles from the Saskatchewan border, and 30 miles from the U.S. border.

SASK.

On To Calgary--

Most of our guests will be travelling on to Calgary for the rest of a memorable Shorthorn and Polled Shorthorn weekend. Mark these important dates.

"CHOICE OF REMITALL" SALE

MONDAY, JUNE 16

Remitall Cattle Co., Olds, Alberta

ROTHNEY FARMS OPEN HOUSE

TUESDAY, JUNE 17

Rothney Farms, R 8, Calgary, Alta.

Air Travel: Brandon to Calgary

For those driving, it takes about 17 hours to travel from Hartney, Man., to Olds, Alta. Excellent air service is available from Brandon to Calgary. We recommend the following schedule.

Saturday, June 14 — Drive to Winnipeg. Transportation will be provided to Winnipeg by Thomas-Gordon-Draper, or rental cars are available in Brandon. Stay overnight in a motel near the Winnipeg airport.

Sunday, June 15 — There are four flights from which you may choose. **Air Canada flight No. 943** leaves Winnipeg at 7:00 a.m. and arrives Calgary at 8:40 a.m. **Canadian Pacific flight No. 77** leaves Winnipeg at 10:10 a.m. and arrives Calgary at 11:03 a.m. **Air Canada flight No. 907** leaves Winnipeg at 10:30 a.m. and arrives Calgary 11:30 a.m. **Air Canada flight No. 135** leaves Winnipeg at 11:20 a.m. and arrives Calgary 2:05 p.m. Planes will be met in Calgary if advance notice is given to Louis Latimer or Harris Simons, sale manager.

Keep in mind that airline schedules are subject to change. This information was correct in mid-April, but we advise checking with your travel agent before making reservations.

DELIVERY OFFER

Free delivery will be made to individuals who purchase either \$5,000 worth or four head in the sale. Group shipments will be made free of 10 head or more to central points within 1,000 miles of the sale. The four herds selling all have trucks moving at various times throughout the continent and each will be happy to cooperate in arranging the most economical possible group shipments. Many of the cattle will be retained for breeding or shows. Arrangements for their delivery may be made with the owners following the sale. A condition of the delivery offer is that the owners accept no liability for the safety of the cattle, and they strongly urge that you insure your purchases. Written instructions giving driving directions from the nearest major highway must be left with the clerks on sale day.

Kinnaber Dana Coronita 2nd x was grand champion of the 1969 National Western and Fort Worth shows, and reserve grand champion at Billings and All-American. She sold in the 1968 sale to Harold and Bruce Wenzel, Langdon, N. D. Her full sister sells as Lot 72. See Dana 2nd x at Kinnaber on sale weekend.

Bonnyview Daffodil 18Y x was grand champion of the 1968 International Livestock Exposition, reserve senior champion of the 1969 National Western and Houston Stock Show and All-American. She sold in the 1968 sale to the Hart Farm, Waxahachie, Tex.

THESE GRAND CHAMPIONS SOLD IN THE 1968 SALE!

No show cattle in recent years have excited the interest from Shorthorn and Polled Shorthorn breeders alike as the Polled Shorthorns that swept to victory in the nation's leading shows last year. They had sold in the 1968 Thomas-Gordon-Draper sale!

Throughout western Canada and then on to Billings, Chicago, Denver, Ft. Worth and Houston, victory was theirs.

This year there will be full show herds made up primarily of cattle catalogued in this sale. Bulls and females alike are being groomed to outlast the strongest competition that can be found in North America. You can match wits with the world's leading

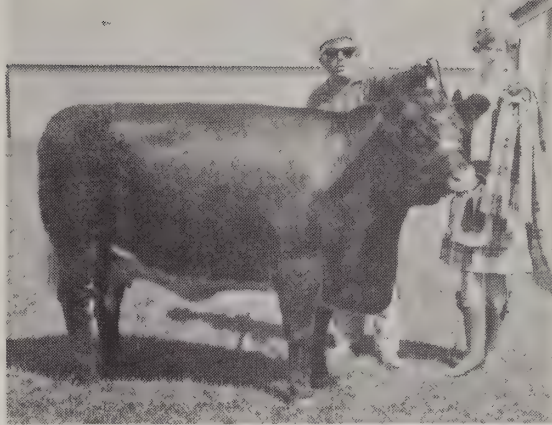

cattlemen on June 14 to pick your future champion. Then watch him or her collect trophies and ribbons as the year progresses.

On subsequent pages too you'll find pictures of cattle from these herds that sold to satisfied buyers in 1968. You'll find cattle that have won in years past . . . many of which are still in the herds.

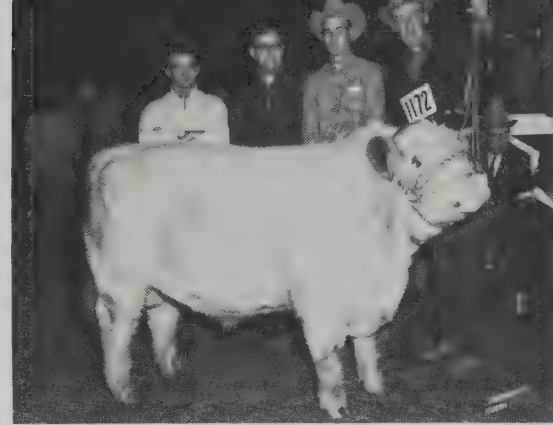

The showing is only one criterion, but in an era of rapidly changing Shorthorn and Polled Shorthorn type, it's an important one. Thomas, Gordon, Draper and Duncan Polled Shorthorns stack up with the best. Come see for yourself on June 14.

Butte Lee Pansy 2nd x was grand champion of the 1968 Northern International Livestock show, Billings, Mont., for Kinnaber Stock Farm. She sold in the 1968 sale to Howard Gibbs, Morton, Sask.

Butte Lee Flora 3rd x won the grand championships at both Winnipeg and Regina and was reserve grand champion at Saskatoon in 1968. She was the top female of the 1967 Manitoba Polled sale to Clarence Lindgren, Esteban, Sask.

The top bull of the 1968 sale was **Rothbury Royal Crusader x** from the Drapers. He sold to Ellis Shafer and Bob Bye of Indiana and later won his class at the International on his way to All-American honors.

WHO WILL BUY THE 1969 CHAMPIONS BEFORE THEY WIN?

Left — The senior get-of-sire by TPS Coronet Leader 21st x was first at the Northern International Livestock Exposition, Billings, Mont., in 1968.

Right—Butte Lee Esther 3rd x sold in the Kinnaber consignment to the 1968 sale at \$1,500 to William, left, and Victor Melenka, Andrews, Alta.

TPS Coronet Keystone x is the only Polled Shorthorn bull to be reserve grand champion of the Toronto Royal Winter Fair. He is now junior stock bull at Rothbury Farms.

Rothbury Augusta Iona 4th x sold in the 1968 sale to the Remitall Cattle Co., Olds, Alberta.

Candun Queen of Beauty 3Y x sells as Lot 90. She was a prominent show winner in 1968 and Candun would like to show her again this year.

LOOK AT THE RECORD OF THESE SHOW WINNERS

Left — Thomas Leader 78Y x sold in the 1968 sale to Percy Budke, Raymond, Mont., at \$1,100. From left are Harold Thieman and Chris Thomas.

Right — Cumberland Gateman x sold in the Kinnaber consignment to the 1968 sale at \$1,400 for two-thirds to the British Columbia Artificial Insemination Center, Milner, B. C.

Clipper King of USA x, AAA, won his class at the National Western on his way to All-American honors. He is now owned jointly by Stout and Murray of Oklahoma, Martin Nold of South Dakota, and Kinnaber.

RN Princes Royal 37th was reserve grand champion of the Royal Winter Fair, second at the 1968 National Western and All-American for R. J. Draper and Sons, Elgin, Man.

Rothbury Augusta B 3rd that weighed 1,420 pounds at 26 months was grand champion of the 1968 Canadian National Exposition for the Drapers of Rothbury.

FROM THOMAS - GORDON - DRAPER - DUNCAN

Left — H Royal Jennie x and her heifer calf topped the Gordon consignment to the 1968 sale to Lea McDonald, Tabor, Alta., at \$2,000. He has purchased three white polled bulls from Kinnaber.

Right — Thomas Leader 26Y x sold for \$1,300 to Robert Mohn, Cottonwood, Minn., in the 1968 sale from Thomas Farms.

LEADER BULLS ARE PROVEN BEST

SASKATOON, SASK., 1965-66:

All five sons of TPS Coronet Leader 21st x, consigned by Edgar Philpott, were above the average for all breeds.

SASKATOON, SASK., 1966-67:

Butte Lee Leader 36th x by TPS Coronet Leader 21st x was the second top-gaining bull of all breeds with 3.49 pounds per day gain. Five sons of Leader 21st x were the second top-gaining sire group of all breeds. There were 200 bulls on test.

DOUGLAS, MAN., 1966:

Sons of TPS Coronet Leader 21st x, consigned by Kinnaber:

Lot	Ave. Daily Gain	Weight/Day of Age
90	3.41	2.78
91	2.78	2.72
92	3.36	2.62
average	3.18	2.71

Sons of Coronet Max Leader x, consigned by Thomas Farms:

120	2.94	2.61
121	2.28	2.25
122	2.95	2.50
126	2.66	2.34
125	2.91	2.45
average	2.75	2.43

Butte Lee Leader 16th x, from the Kinnaber consignment, sold at the top price paid for a bull of any breed to Searle Farms, East Selkirk, Man.

The above gains were achieved on a ration of 50 per cent roughage.

DOUGLAS, MAN., 1967:

Sons of TPS Coronet Leader 21st x, consigned by Kinnaber:

12	3.18	2.69
13	3.07	2.53
14	3.13	2.55
average	3.13	2.59

Sons of Coronet Max Leader x, consigned by Thomas Farms:

22	3.34	2.79
23	3.07	2.61
24	2.98	2.58
25	3.25	2.58
26	3.11	2.54
average	3.15	2.62

average for
all breeds 2.81

Butte Lee Leader 46th x was the top-seller over all breeds in the sale following the test, to Lorenze Schneider, Wolseley, Sask.

The top-gaining Thomas bull, Thomas Leader 41st x, sold at the top of the 1967 Thomas Production Sale to Cloyd & Virginia Welch, Pasco, Wash.

DOUGLAS, MAN., 1968:

Sons of TPS Coronet Galaxy 10th x, consigned by Kinnaber:

168	2.56	2.49
169	2.91	2.75
170	3.18	3.08
average	2.88	2.77

The top gainer was Cumberland Gateman x, which was second high-selling bull in the 1968 Thomas-Gordon-Draper Sale to the British Columbia Artificial Breeding Center, Milner, B.C.

BY MANY PERFORMANCE TESTS!

STANFORD, MONT., 1968:

The bulls from Thomas Farms outgained ALL British breeds in the more than 400 bulls on test at Stanford. They sold at an average of \$1,320, primarily to western commercial men.

STANFORD, MONT., 1969:

Nineteen bulls on test from the sale consignors had made record gains after 112 days equalling the tops of any other British breed at this important test in the heart of ranch country.

One Thomas bull has out-gained ALL other bulls of ALL breeds except one and he is only ahead by one pound total gain! Another bull from Drapers is the heaviest bull in the station for his age and the highest indexing bull in the station.

The sale was May 5. Watch for the complete results in the May 15 issue of "The Shorthorn World."

SHERIDAN, WYO., 1969:

Two bulls out of TPS Coronet Leader 21st x daughters posted record gains of 3.51 and 3.21 pounds per day after 112 days on test for Dr. Martin Nold, Gettysburg, S.D.

WALSH FEEDER SALE:

A group of TPS Coronet Leader 21st x sons topped the Walsh Feeder Sale in Manitoba at a record price.

BASSANO, ALTA., 1969:

Here's the record of 10 Shorthorn crossbred steers by TPS Coronet Leader 21st x now on test for L. K. Ranches Ltd. in the Master Feeds Beef Research Station, Bassano.

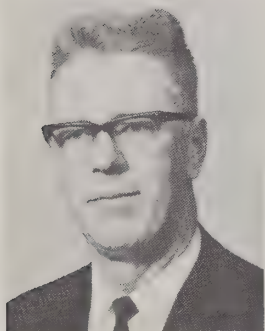

Ten Shorthorn Crossbred Steers by TPS Coronet Leader 21st x	Highest Hereford Group of 10 Steers	Station Average on 132 Steers
Dec. 18-19, 1968		
Weights 506	466	490
Mar. 12 - 84 days on test - wts. 776	740	727
Apr. 9 - 112 days on test - wts. 864		
84 day Average		
Daily Gain 3.21	3.26	2.82
112 day Average		
Daily Gain 3.18		
84 day Feed		
Conversion 5.33	5.14	5.79
112 day Feed		
Conversion 5.60		
84 day Cost per lb. of Gain 13.9	13.4	15.1
112 day Cost per lb. of Gain 14.4		

The test results at these leading performance test stations bear out our faith in big Polled Shorthorn bulls. Time after time, Polled Shorthorns surpassed other breeds both individually and as a breed. Time after time, our consignments were the tops of the Shorthorns and Polled Shorthorns.

All four herds represented are and have been on official government home test. Complete test data will be available on all bulls selling June 14.

From Each of Us

Welcome to Thomas Farms

ROSS THOMAS

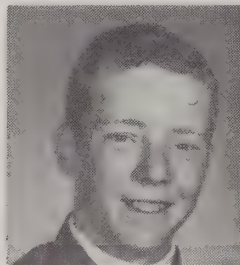

**MRS. ROSS
THOMAS**

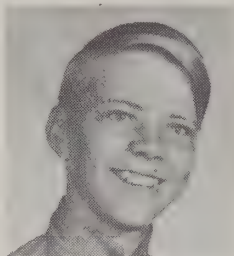

This is the third annual sale for everyone here to be publicly involved in this modern Shorthorn business. Last year, in order to provide greater depth and scope towards a bigger and stronger sale, we joined forces with the Gordon Brothers, and with the Drapers. This year we are pleased to welcome a special draft from our good friend, Bob Duncan, as well. Last year was a good year; this year promises to be even more exciting.

We each have our own skills in developing and displaying our cattle, but whether we are presenting our cattle in the showing, or at the Production Indexing Centres, or on our own farms, one farm's efforts compliment the others. For our goals are very similar, our breeding is very similar, and our cattle are very similar. When you come to see our cattle, you will see just how true that is.

Here at Thomas Farms, our goal is to produce the largest, fastest-gaining, and most dependable breeding cattle in the Polled Shorthorn business. We have 11 years of performance testing experience, plus the good fortune to be involved with some of the finest people and the finest cattle in the world. We are persuaded that the bottom third of the herd has hardly paid for the expenses, and certainly not paid for the groceries. We believe that the top-gaining third of the herd is not only where the profit has been made, but also the satisfaction and friends are gleaned from there.

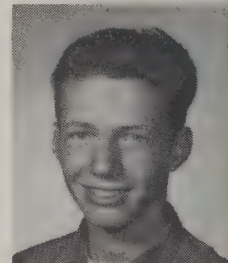

**CHRIS
THOMAS, JR.**

DAVID THOMAS

**CATHY
THOMAS**

ERIC THOMAS

MR. AND MRS. CHRIS THOMAS

Performance weights between herds don't mean a thing, but performance indexes within any given herd are very important. That's why we are continually testing the production of our cows. That's why we are always trying five or six young bulls. That's why so many people keep telling us that we have one of the greatest cow herds in the country.

We have travelled extensively through Canada, the United States, New Zealand and Australia. Everywhere the talk, the need, the demand is the same. We need faster gains with more length, more height, less waste, and a better dressing percentage when the beef is hung on the rail. The challenge is here and now. We are meeting this challenge by competing successfully against all breeds at Production Indexing Centres, where they are all handled under the same conditions. It is our belief that more commercial producers are watching these Indexing Centres than any other cattle shows in the country. We invite all other breeders to accept the challenge of proving that Polled Shorthorns can perform — yes, and outperform — all other breeds.

We look forward to welcoming you to our annual sale this year.

MR. & MRS. C. S. THOMAS

**MR. & MRS. R. M. THOMAS
AND FAMILY**

The Quest for Improvement

The search for even bigger and faster gaining animals is always part of any true breeder's program. This year in a combined effort with Mr. and Mrs. Edward Long of Questing Hills, Chandlerville, Ill., we made a thorough tour of New Zealand in search of a potential herd sire that might possess even more growth potential than we have available on this continent.

TPS Coronet Leader 3rd x, that was first imported to Scotland and later to New Zealand, had left a few massive bulls in this country and we had hoped to find an animal of this line that would be a real challenge to bring back. The New Zealand breeders, however, have had the same source of seed stock as we have in North America, so we left empty-handed.

While we were so close to Australia, we had to see what they were doing. This was the final home of Priam Royal Leader x. We toured New South Wales thanks to the hospitality of the Australian Poll Shorthorn Breeders. We saw many strong, big, useful cattle. By measurement, their biggest were as tall as our biggest. They were very similar in skeletal width of hip and length from hooks to pins. They impressed us very favorably, but their cattle are barred from our country because of pleurs pneumonia and we cannot sell to them because somewhere we have Blue Tongue in our American sheep.

Eventually, we realized that if we want to produce cattle to meet the needs of this continent, we must develop them ourselves. The day for producing "pony type" cattle is long past. To breed "middle of the road" cattle is comparable to trying to sit on the fence. A person can't remain there. The day of larger, high-gaining cattle is here. All of us involved in this sale are dedicated to herd improvement with the biggest, fastest-gaining cattle to be found. Our search never ends. With so many aggressive breeders working together, we are confident that we will still be producing the cattle of tomorrow when tomorrow arrives.

ROSS THOMAS
Thomas Farms

Ross Thomas boards the jet that took him on the first leg of his recent journey to New Zealand and Australia.

Here's Ross Thomas in Australia inspecting their Poll Shorthorns and exchanging ideas with their leading breeders.

PRIAM ROYAL LEADER x

TPS CORONET LEADER 49th x — This bull has fit into our herd very well. We purchased him as the biggest calf for his age in the Thieman herd at 12 months of age. We showed him through the summer of 1965, and the picture on page 17 shows him winning his class at the Brandon International Summer Show. The 49th is a strong, muscular bull so desirable for good cutability. He has a good coat of hair with a thick, mossy undercoat. By Coronet Max Leader x, the bull who made the "Leader" name by siring so many great Leader bulls as well as setting the performance pace at Stanford last year. He also is out of the same Nonpareil family as TPS Coronet Leader 21st x, their dams being out of the same cow, Nonpareil Lady 138th.

NONPAREIL LADY 163rd, right

She is the dam of the great TPS Coronet Leader 21st x, the AAA bull that weighs 2,250 pounds in breeding condition. With his great size coupled with great quality, he is having a tremendous impact in the vast commercial cattle field of the West. The 163rd is out of Nonpareil 138th, also the granddam of TPS Coronet Leader 49th x. This is the foundation Nonpareil family at Thieman's Polled Shorthorns, Concordia, Mo., a great family which was originally purchased from Chenault Todd, Fayette, Mo. Since half the inheritance of every calf comes from his dam, the outstanding performance of every bull must be shared equally with the dam as well as the sire.

TPS CORONET LEADER 49th x, left

TPS Coronet Leader 49th x is shown here winning first in a class of 18 of the youngest bulls in the 100-head International Shorthorn Show at Brandon, Man., in the summer of 1965. Judge W. J. Small, Craven, Sask., said he was Thieman-bred, but the "typical Thomas type with the makings of a big bull with extra length and powerful bone."

CORONET MAX LEADER x

CORONET MAX LEADER x — His picture has been printed so often that everyone recognizes this main trunk of the Leader family tree. One can only imagine the satisfaction which Messrs. Lewis and Harold Thieman must enjoy when they see the continuing progress of their customers using the sons, grandsons, and great grandsons of this bull. He, himself, had a rib eye (13th rib) measurement of 17.35 square inches; fat covering .50 inch and his weight at six years was 2,450 pounds. In this sale the Drapers are featuring the get of a grandson as well as a son of this bull. The Gordons are presenting cattle of the same lineage; so also is Robert Duncan. The same is true with the Thomas consignment. It may well be said, "The King is dead, Long Live the King!" Last year our group of five sons of Coronet Max Leader x had the highest gain of any group of bulls at Stanford, Mont., averaging 3.23 pounds a day gain on test with the lowest gain being 3.07 pounds gain and the highest gain being 3.46. This year it is the son and grandsons of Coronet Max Leader x that are the top performers at that station.

THOMAS LEADER 110Z x — This is the youngest bull that we will be offering but he is out of the good cow Maple Wanda x. The sire, TPS Coronet Leader 49th x, was in our opinion the stretchiest calf in that calf crop when we chose him at Thieman's. The 49th's dam, Nonpareil Coronita 2nd, is out of the same cow as is the dam of TPS Coronet Leader 21st x and there is no doubt that the old cow, Nonpareil Lady 138th was able to pass on a tremendous growth ability as indicated by the many large stock bulls from this famous cow family.

THOMAS LEADER 84Z x — This bull is a combination of our top herd individuals. The merits of TPS Coronet Leader 49th x have often been presented. Thomas Flora 9T x is the good daughter of Carona Perfect x, the ton bull whose daughters have been our most successful females in our earlier breeding experience. Cameron Floradora 3rd and her mother Floradora 2nd both weighed more than 1,600 pounds.

CORONET MAX JUGGLER 18th x is the foundation line at Thieman's Polled Shorthorns, Concordia, Mo. He is by the great Killearn Max Juggler, undefeated as grand champion wherever shown, including the International. The 18th, himself, sired three grand or reserve grand champions at the International, and his get won just about everywhere shown. Many of the females that went to the great Bapton herd in Scotland to establish another famous line there were by the 18th x. Probably just as important as a sire of prize-winners is that he was a sire of size, substance, bone, weight-for-age, as well as good colors, great heads and plenty of quality. Even at eight years, he weighed over a ton and was active and impressive. His influence is shown either in the pedigrees printed, or in the fourth generation not showing, of well over half the cattle selling in this sale.

THOMAS LEADER 81Z x, Lot 5

The group of bulls offered in this sale by C. S. Thomas & Son, cataloged as Lots 1 through 7 in this catalog, are impressive in their natural surroundings.

THOMAS LEADER 81Z x — One of the highest weaning indexing calves we weighed last fall. This bull has the same grandsire on his dam's side as our high-gaining bull at Stanford. A three-quarter brother is our top-gaining bull at Stanford, gaining 3.35 pounds a day on test. TPS Coronet Galaxy 3rd x was also the maternal grandsire of our top bull at Stanford last year. This is a top prospect for any herd in need of a bull with a high growth factor.

THOMAS MAX 11Z x, Lot 7

THOMAS MAX 13V x sold at \$900 in the 1966 Canadian All-Bull Sale, Brandon, Man., to T. G. Rogers, Pugwash, Nova Scotia, second top polled bull in that great auction, topped only by a half-brother. This year a steer by Thomas Max 13V x, shown at the Maritime Winter Fair by T. G. Rogers, was grand champion of the show and sold at \$2.50 a pound. Thomas Max 13V x is a half-brother to the sire of Lot 7, both by International grand champion TPS Max Coronet 92nd x.

THOMAS MAX 11Z x — Sired by our 100% dehorning son of the International grand champion, TPS Max Coronet 92d x. Thomas Perfect Jewel 12M x is also the mother of our herd sire Thomas Leader 24X x, that is also a 100 percent dehorner. Thomas Max 11Z x had the top weaning weight of all our sons of Thomas Max 31V x. He continues to develop as one of our top herd sire prospects. Out of one of our best-producing Coronet Max Leader x daughters, he combines the most modern, high performing blood-lines.

Five of the Thomas heifers selling in this sale. These would look just as well in your own lots.

THE THOMAS FEMALES

To produce cattle of the size in modern demand offered in this sale, the dams must also be backed by the inheritance of size. There is no peewee inheritance back of the Thomas females selling. These come from one of the greatest cow herds on the continent. Just look at the record of the sires of this offering. Six 1968 heifers are by TPS Coronet Leader 49th x; six older females are by International grand champion TPS Max Coronet 92nd x; six are by Hilddale Jubilee x, a grandson of the Polled Congress champion Alauna Collynie x that was purchased in 1958 from Bill Bennett's show herd and used successfully, siring many of our better breeding females; three are by TPS Coronet Galaxy 3rd x, used in the herd for his great size and passing it on through his daughters, two of which have been dams of two top-gaining bulls at Stanford, Mont., in 1968; three are by Thomas Leader 61W x, son of the great Coronet Max Leader x; two are by Hilddale Supreme x, another grandson of Alauna Collynie x; one each is by Thomas Max 31V x, a 100 per cent dehorner, weighing a ton in breeding condition; Hi-Way Royal Oak x, one of the first really big polled bulls to start the trend toward the big, useful, high-gaining cattle, and one by our great Carona Perfect x, a half-brother to the incomparable Carona Fascination x, and whose daughters are producing our top Leader calves. Can you afford to miss having some of these females in your own herd?

PHEASANT CREEK LEADER 3rd x, top of the 1969 Regina, Sask., Bull Sale at \$3,900. By Kinnaber Leader 6th x.

KINNABER LEADER 6th x — We are pleased that Alf Dreger came to our sale last year, for while he was here arrangements were made for the purchase of Kinnaber Leader 6th x. We had been watching him and especially his progeny, and knew that this was the bull we had to have. His calves are proving this bull to be one of the really top sires. He has been complimented by several who state that he is the most modern Shorthorn bull they have seen. We believe him to be the longest and deepest of the sons of TPS Coronet Leader 21st x to have developed to date. He is a 100 per cent dehorner, has no scours, has wonderful feet and bone, back and head. He has the most gentle disposition. He is a pleasure to work with, yet out with the cows he is all business, very active.

One of the greatest tributes of this bull is the acceptance of his progeny. His first three sons shown at the Regina Bull Sale among strong western competition, won the senior and grand championship, as well as the group of three. When Louis Latimer and John Shuman chose two of these three bulls for herd sire use, it certainly proved the ability of the 6th to sire calves which meet the approval of the most astute breeders.

As Kinnaber Leader 6th x arrived on the farm late in our breeding season, we have only a few females bred to him. We are only able to offer a few in this sale, but the calves which arrive on the farm will certainly be closely watched for their performance in our official home performance program. We have every confidence in this bull's inherent growth ability.

When you come to our sale and see him, I know you will be challenged by the fact that this is a bull which will be setting the standard of the breed. As the late Duthie Webster is quoted as saying when an exporter offered him a high price for one of his stud sires, "I can manage without the silver, somehow or other, but I cannot manage without the bull. He's no' for sale."

Leader 6th is not for sale, but in this scientific era the sale of a few vials of semen means we can share him, on a limited basis. At \$500 per service, this could be a real bargain.

PHEASANT CREEK LEADER 3rd x, left, was one of three sons of Kinnaber Leader 6th x consigned by M. A. Dreger, Lorlie, Sask., to the 1969 Regina Bull Sale. He weighed 1,830 pounds at two years of age and was purchased by the great Remitall Cattle Co., Olds, Alta., as their first Polled Shorthorn bull. In the same sale John Shuman & Sons, Colomeadow Farms, Byers, Colo., bought another son of the 6th, Pheasant Creek Leader x, second top of the sale at \$3,100. This 26-month-old weighed 1,790 pounds at two years and is one of the first polled bulls at famous Colomeadow. The third son of the 6th, Pheasant Creek Leader 2nd x, sold at \$1,875 to John Dolman, Eatonville, Wash. His two-year-old weight was 1,740 pounds.

THOMAS LILY 20Z x — At the Stanford, Mont., Performance Indexing Station, the descendants of Coronet Max Leader x have been carrying the responsibility of proving that his excellent performance last year can be repeated by his sons and grandsons. The results have shown beyond any doubt that this line of cattle has earned and justified their enviable reputation. If you wish, we will hold this heifer and breed her to your choice of our six herd sires.

THOMAS PRINCESS 121Z x — The youngest heifer we are offering, but her mother indexed above average in our herd, and although Thomas Princess is a two-year-old heifer's calf, she still indexed 104. We offer this heifer with confidence in ability to develop as a good useful female. Notice that Thomas Princess 83X is by the same sire as this year's reserve grand champion at the Regina Bull Sale, where he won over some very strong competition. Open with breeding privilege.

THOMAS MAX 019V x, grandsire of Lot 14, was used at Thomas Farms for one season and then sold. He was the two-year-old in the show herd and was grand champion in five of six 1966 shows in horned competition. That he carries on the potency of his sire, the International grand champion TPS Max Coronet 92nd x, is shown by the fact that a son, Melvary Jubilee x, was reserve grand champion of the 1969 Regina Bull Sale in strong competition, consigned by Zepick Bros., Kipling, Sask., who purchased him in dam, and sold at \$775 to Fahlman Bros., Kronen, Sask.

THOMAS ANNETTE 53Z — Out of the good Thomas Leader 61W x, and from one of our top female families. Thomas Annette 78X x is by Thomas 019V x that is the sire of this year's Regina Bull Sale junior and reserve grand champion. Shown by the Zepick Brothers, Kipling, Sask. They bought Thomas Blythesome 21st x at our sale here two years ago. She was carrying the bull that won at Regina this year. He not only repaid the investment, he also won for them in one of Western Canada's strongest bull shows. Open with breeding privilege.

THOMAS SHIRLEY 80Z x — By the 100 percent dehorning Thomas Max 31V x that we own in partnership with J. R. Patterson, Helston, Man. TPS Max Coronet 92d x sired the Galaxy Unlimited line of cattle for Harold Thieman, and of course Coronet Max Leader x has lead the way in this modern trend of Polled Short-horn cattle. Open with breeding privilege.

TPS MAX CORONET 92nd x — As a special attraction we are offering six daughters of TPS Max Coronet 92nd x. These cows are in their prime at five years of age and are by the same sire as TPS Coronet Galaxy, that also produced several test station performance-winning sons. With calves at foot, these daughters of the 2,450-pound, International grand champion will provide a real sale opportunity. Note that TPS Coronet Galaxy sired the highest scoring AAA sire in America, TPS Coronet Unlimited x, a 2,100-pound bull that in turn sired the 1967 International grand champion female and the winning get-of-sire at that same show. TPS Coronet Galaxy had a rib eye (13th rib) of 16.75 square inches; fat covering .49 inches, and weight at four years of 2,120 pounds.

THOMAS MAX FLORA 6V — We have decided to sell six daughters of TPS Max Coronet 92nd x as a special feature of our female sale. In the Thieman herd, the 2,450-pound TPS Max Coronet 92nd x sired TPS Coronet Galaxy, that was the sire of TPS Coronet Unlimited x. Thomas Perfect Flora 4S x is sired by Carona Perfect x that was years ahead of his time, siring big, useful, heavy-milking females. Cameron Floradora 3rd was one of the biggest cows we have ever owned, and very few of her female progeny have been allowed to leave the farm. This cow sells with polled red heifer calf born April 12 by Thomas Leader 24X x, that so far has been a 100 percent dehorner.

THOMAS BLYTHESOME 93V x — One of the six daughters of TPS Max Coronet 92nd x that we are featuring in this sale. We bred her back to Thomas Max 31V x, our 2,140-pound son of the old 92nd x looking for a bull calf to use with Leader daughters. The Max line always produced easy-keeping cattle. Though they may be dragged down in the fall, are always back up in good rig by spring. Only to prove we are selling our best do we part with this cow that could play such a substantial part in our breeding program.

THOMAS GALAXY RUBY 34V x — TPS Coronet Galaxy 3rd x has sired some of our biggest, most modern females. This daughter carries the blood of Carona Perfect x, as well as Killearn Cyril 5th, which gives us every confidence in the ability of this young cow to produce calves with a strong growth factor. Will calve by sale day to Kinnaber Leader 6th x, one of the most popular bulls in the Shorthorn business today. This unborn calf is bred for growth. Its grandsire is TPS Coronet Leader 21st x and the dam is by TPS Coronet Galaxy 3rd x, that sired the dams of our high gaining bulls at Stanford this year as well as last.

THOMAS GALAXY KATE 38V x — This daughter of Galaxy 3rd x is a regular breeder that we have mated to Thomas Leader 24X x. The dam of 24X x is in the good herd of the Noltimiers at Churchs Ferry, N.D., who selected her as one of our very top producing cows. This is the second son of Thomas Perfect Jewel 12M x by Carona Perfect x that we have used, and they have both been excellent breeders, and so far both 100 percent de-horners.

PLEASANT DAWN CLARET x — Claret's sire, Hi Way Royal Oak x, was one of the first really big polled bulls to start the trend toward what is now demanded in big, useful, high-gaining cattle. The rancher who bought her bull calf a year ago made a special effort to buy her last year's calf, but we had him entered at the Stanford, Mont., Performance Testing Station, where he has performed well above the average. Sells bred to our muscular Thomas Leader 24X x.

THOMAS JUBILEE JEWEL 27T — Consistency of performance is a requisite for a female to stay in our herd, and this cow calved as a two-year-old, has never missed raising a calf, and every one has been polled. Every calf has been born in March or April. She was pasture bred to our muscular bull, Thomas Leader 24X x, by Coronet Max Leader x, the bull which recharged Polled Short-horn popularity. No other bull can claim so many sons and grandsons in the major herds on this continent.

THOMAS LILY 63T x, Lot 32

THOMAS LILY 63T — Thomas Lily 63T has raised a polled calf every year since she first calved as a two-year-old. Her daughter, Thomas Lily 20Z x, was chosen as one of the 10 heifers we are consigning to this sale. If consistency is important, this cow has proven herself par excellence. Every one of her calves has arrived between March 12 and April 9, every one polled, and all but one were females. Should calve by sale day to Kodiak 3rd x, our grandson of Coronet Max Leader 3rd x of Bapton fame.

THOMAS SUPREME JEWEL 15U x — Pasture bred to Butte Lee Leader 45th x by TPS Coronet Leader 21st x, a 100 percent dehorner so far. We are proud to have a battery of six of the biggest bulls in the country. While you are on the farm, make sure you see them all. Butte Lee Leader 45th x is one impressive bull.

A group of yearling heifers selling in the Thomas consignment. All are by TPS Coronet Leader 49th x, first in a class of 18 youngest bulls at the 1965 International Shorthorn Show at Brandon, Man.

KODIAK 3rd x, left

We are proud to have a battery of six of the biggest bulls in the country, and Kodiak 3rd x is one of the junior herd sires. He approached a ton by the time he was two years of age. He is service sire of three females selling. He is by TPS Coronet Leader 4th x by Coronet Max Leader 3rd x, a bull that went to Bapton in Scotland and was the foundation sire of their Polled herd there, and later exported to New Zealand, where he was acclaimed an all-time herd improver.

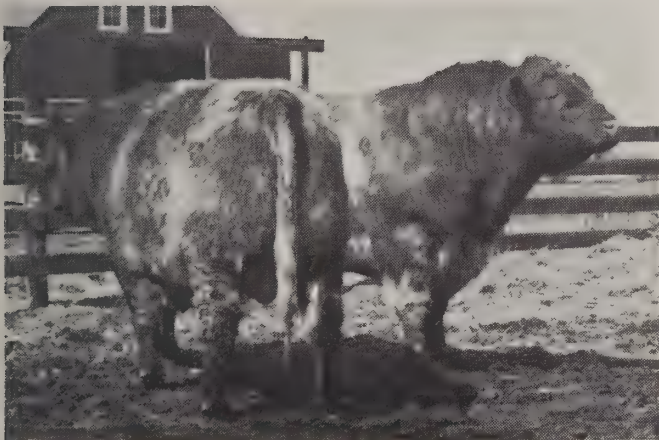

KODIAK 3rd x

THOMAS LEADER 24th x is another of the junior herd bulls at Thomas Farms, a muscular 100 per cent dehorner, and is service sire of seven females selling. His dam Thomas Jewel 12M x is also the dam of Thomas Max 11Z x, selling as Lot 7 in this sale. She is one of our best producing Coronet Max Leader x daughters and is now in the Noltimier Polled Shorthorn herd at Penn and Churchs Ferry, N.D., whose bulls from Thomas sires are the second top-indexing of all Shorthorns on test at Stanford, Mont., this year after 112 days.

Left, THOMAS MAX 31 V x

**From left: KODIAK 3rd x and KINNABER LEADER
6th x**

THOMAS MAX 31 V x

THOMAS MAX 31V x is the biggest of the Thomas sires and is our choice of our bulls by the 2,450-pound International grand champion TPS Max Coronet 92nd x. We chose him because he is out of Thomas Perfect Jewel x, a Carona Perfect x dam, a 1,500-pound cow that has never had a horned calf. She is also the dam of our Coronet Max Leader x bull that we are keeping for our own use. She was our feature cow in our 1967 Production Sale, going to Noltimier's Polled Shorthorns, Churchs Ferry, N. D. We like him because of his length of body, where the high priced cuts of meat come from. We like his smooth, easy fleshing. He has all the smooth, flat bone he requires to do the job and carry his 2,100 pounds around, and not so much bone as to cause losses at calving time. He has proved himself a 100 per cent dehorner. His calves look promising. We want him because we know that the Max and Leader bloodlines blend well together. Thomas Max 31V x is sire of one bull and one female selling, and service sire of five females in this consignment.

What Herd Can Equal This Performance Record

PERFORMANCE is the **KEY** word at Thomas Farms. They are presently testing six herd sires. Only the ones whose calves prove superior will be kept and will be deemed worthy of being called a "Leader." Just look at this record over a period of three years of the Thomas bulls! Put these added pounds and dollars to work in your herd on June 14.

1967

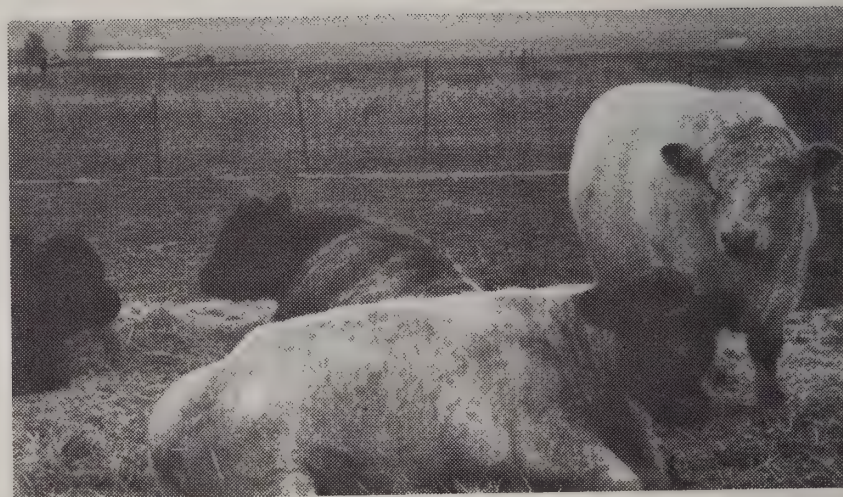

Thomas Leader 41st x was our top-gaining Shorthorn bull on test at Douglas, Man., in 1967, with a daily gain of 3.34 pounds a day. He also was our high-selling bull at our 1967 production sale going to Cloyd and Virginia Welch, Pasco, Wash. The Thomas bull that topped the farm performance tests sold at the same figure. This proves that high performance and quality can go hand in hand.

1968

Five Thomas Leaders led the way at the Test Station at Stanford, Mont., in 1968 and all were sons of Coronet Max Leader x. They outgained all British breeds in more than 400 bulls on test and sold at an average of \$1,320, primarily to western commercial men. They had the highest average daily gain over all bulls of all breeds on two test weighings with an average daily gain of 3.23 pounds a day.

1969

Nine Thomas Leaders sell at Stanford, Mont., in 1969, where 200 bulls of all breeds are on test. At this writing they have the highest average gain among the Shorthorns with the two highest gaining bulls, Thomas Leader 15Z x indexed 150.4 and Thomas Leader 49Z x, indexed 141.5. Both are by TPS Coronet Leader 49th x (sire of six bulls and six females selling in this sale) and both are out of dams by TPS Coronet Galaxy 3rd x, five

THOMAS LEADER 41st x was Thomas' top-gaining bull at Douglas, Man., in 1967 and is now owned by Cloyd and Virginia Welch, Pasco, Wash.

times grand champion in 1966, and sire of three females selling June 14.

Noltimier Polled Shorthorns, Churchs Ferry, N.D., have five sons of Thomas Leader 28W x at Stanford this year. They are the second top-indexing of all the Shorthorns on test after 112 days, including two bulls that have gained 3.30 pounds a day. The best indexing Noltimier bull is a maternal brother to one that was sold to a commercial whiteface herd. He increased their weaning weights by 85 pounds a head at 205 days. His sons off grass and roughage at 16 months weighed 1,025 pounds and dressed 59.8 per cent. Thomas Leader 28W x was the second top-gaining bull of the Thomas 1965 calf crop and the highest indexing bull that year. His official weight at two years and six days was 1,545 pounds on pasture. He is a 100 per cent dehorner.

Welcome to Rothbury

The challenge of breeding a better one is great. Being a poor loser, I don't like standing second. Thus, never have we at Rothbury been so proud of an offering as we are this one for the 1969 Thomas-Gordon-Draper sale on June 14. We are proud again to join our neighbors in this effort to make this the greatest offering of all time.

When our bull, Rothbury Royal Crusader x, topped this sale last year going to By 'n By Farm and Ellis Shafer, Union Mills and Royal Center, Ind., it was a first incentive that spurred us to the best offering we have ever made. The second incentive came last February when Rothbury Dynamic Leader 17th x became the first Polled bull to be a champion of the second-to-none-in-the-world Canadian Bull Sale at Brandon, Man., selling at \$6,000 for two-thirds interest to the discriminating herd of Saraguay Farms of Quebec.

Now in this sale Rothbury offers one bull and 27 females, all but two of which are by the great Kinnaber Leader 5th x, "Mighty Mr. Modern," sire of the Brandon champion.

Twenty-six of the females sell open with breeding privilege to our great herd bulls. One sells bred to TPS Coronet Keystone x, described later in this section.

Our cattle are right for the times. They are strictly the 1970 kind and will make friends for modern Polled Shorthorns wherever they go. A great treat awaits you at sale time when you view Rothbury's powerful stock bull battery and the outstanding 100-head cow herd.

My brother Mac has been a great help in our organization. He has worked with most of the top herds of the continent — Louada, Scotsdale, Aberfeldy, Billy Anderson's — gaining great

From left: Sandra, John and Mac Draper.

knowledge in conditioning cattle and in presenting them. He gears the show end of things. This year he will have a new bride to show to his friends, as he is being married on May 24 to Miss Betty Neufeld.

Three years ago Orrin McLennon joined us as herdsman. He has done his job well, and a lot of our recent success is due largely to him.

Credit must also go to the distaff side for a lot of the Rothbury success — to my wife Sandra and my mother — who put up with us.

The greatest part of being a Polled Shorthorn breeder is the fine people we meet, all over America, so we welcome you to the sale on June 14 and look forward with keen pleasure to meeting all of you.

JOHN DRAPER

Left: Follow the shadow line on "MIGHTY MR. MODERN x" — That's the Meat Line. He weighed 2,260 pounds one week before his third birthday. He'll weigh 2,500 pounds at maturity. In his first crop of calves he sired Rothbury Dynamic Leader 17 x, pictured on page 54, the first polled bull to be champion at the great Canadian Bull Sale at Brandon where two-thirds sold for \$6,000. Show rights have been reserved so you will see this great bull on sale day, June 14.

KINNABER LEADER 5th x

"MIGHTY MR. MODERN"

KINNABER LEADER 5th x

KINNABER LEADER 5th x — How does one describe "Mighty Mr. Modern" (Stock bull par excellence). Anyway you describe him he is the greatest thing that has ever happened to us since we started breeding livestock. He is mighty, scaling over 2,300 pounds in working condition. He is modern and clean-cut with no excess fat on him. As one recent Montana rancher said, "I didn't know there was this type of Shorthorn."

The measure of a sire is consistency. No bull can be called great unless all of his offspring are of high calibre. As a sire, the 100 per cent dehorning "Mighty Mr. Modern" will rank high with any sire of any breed today.

His first son to sell at the International bull sale sold at 10 months of age, was reserve champion, first polled bull to be a champion at this great sale, and sold at \$6,000 for two-thirds

interest to the highly regarded Saraguay herd owned by Mrs. W. C. Pitfield. His first daughters sold in last year's sale. They averaged \$1,000 as open yearlings and were bought by the breeder of his great dam, Mr. C. B. Carignan, and Remitall Cattle Co.

His last year's complete heifer calf crop that all sell in this sale have been the most talked-about group of females for some time. As one of the great breeders of Shorthorn cattle in America said a few weeks ago, "That's probably the greatest set of heifers by one sire I have ever seen."

In recent months some of the great herds of America have tried to buy Mr. Modern. We appreciate the judgment and foresight into the future of these fine men and fellow breeders, but Mr. Modern is the kind of sire we dreamed of owning only a few years ago and he will never leave Rothbury Farms.

A Word About Mr. Modern's Daughters

We know how high the standards for this sale have been set. We know in working closely with the Thomases and Gordons that every effort has been made to make this the greatest offering of polled cattle ever.

To play our part we knew we had to sell our best. Where were we to cut into this tremendous group of daughters of "Mr. Modern"? We had the toughest decision to make since we started breeding polled cattle. We would sell the complete group. These heifers

have never been in a shed or a building, just a board fence for protection and most of you know how cold it gets in Manitoba in the winter. They're hardy!

All the pictures taken of our cattle are completely unretouched, no brushing or combing done beforehand. We will take any of these young females home and serve her to the herd bull of your choice at Rothbury Farms.

The first Polled Shorthorn bull ever to win a championship at the Canadian International Bull Sale was Rothbury Dynamic Leader 17th x, that later sold at \$6,000 for two-thirds to Mrs. W. C. Fitfield's Saraguay Farm, Montreal, Que. From left are John Draper, Mrs. Pitfield, Bob Draper, and Mac Draper.

ROTHBURY DYNAMIC LEADER 17th x — One of the first sons of Kinnaber Leader 5th x, he is the only polled bull ever to win a championship of the Canadian International Bull Sale. He topped that sale in February at \$6,000 for two-thirds to Mrs. W. C. Pitfield, Montreal, Que. Show rights have been retained so you can see him at Rothbury on sale day. One of the biggest calves yet developed, he had an official government test weight of 700 pounds. Rothbury Cinderella Phyliss is by Kelburn Insignia. He was from the great Clipper Beatrice line. Princess Pam 4th was a 1,500-pound cow by Kelburn Monarch 148th that was one of the best ever produced by Claude Gallinger.

This is how Rothbury Dynamic Leader 17th x looked as a calf. See his footnote for complete information on one of the biggest and best Polled Shorthorn bulls ever developed. He will be on display at Rothbury sale weekend.

ROTHBURY DYNAMIC LEADER 7th x, Lot 37

ROTHBURY DYNAMIC LEADER 7th x — It was not our intention to offer this great prospect at this time since we wanted him in our show herd for the next year. But in our effort to make this the greatest offering of all time, he will sell June 14 under the condition that he travel with our show herd until August 15. We would also like to show him at Chicago and Denver with the buyer's permission. He was born a great one, then had a severe setback when his mother developed udder infection and died. He was then shifted to another cow who raised him along with her own calf. In the last few months he has really come into his own. Searle Nonpareil G 8th was a tremendous big, heavy milking female. The kind of cow that should produce a herd bull. Rothbury Dynamic Leader 7th x has that extra length, bone, sogginess and the head of a stock bull! Look at the great cattle in his pedigree. He will be one of the great polled bulls to be offered this year.

Carig Maudette 3rd x is the granddam of Lot 37. She's one of the biggest and best cows of the breed. For more of her story see page 103.

THE QUEEN FAMILY

When in the history of Polled Shorthorns have you been able to purchase five females like this and all from the same great family? They all go back to the fine old Queen Nora 2nd. This was the great cow that put us in the cattle business. The first champions we ever showed were her sons and daughters. She was never sold. She lived out her life right here on the farm.

To buy one of these females would be great, but to buy all five would be five times greater. One will add value to the other. To breed five heifers so closely related takes years. You could have all five in your herd in one day. We are proud to offer them, as we know what they will do for this great breed.

ROTHBURY MISS QUEEN ROTHES x — Miss Queen Rothes x has forced us to make one of the hardest decisions since we entered the Polled Shorthorn business. When Harris Simons visited here in February, he urged us to sell the complete 1968 heifer calf crop by "Mighty Mr. Modern." At first we said no, but have since consented to do so. Here is one of the reasons we at first refused. Miss Queen Rothes x has been a standout since birth. Her mother is a great young cow that stood at the top of her class many times as a two-year-old heifer. Rothbury Queen Nora 5th, her grandmother, won more championships in three years of showing than any female we ever showed. Her massive two-year-old son Rothbury Dynamic Leader x will be at the head of our next show string. You will see June 14 why the decision was so tough. Miss Queen Rothes x's kind are seldom found and never offered for sale. She weaned at 610 pounds. What great herd will own her June 14? Sells open with breeding privilege.

ROTHBURY MISS QUEEN ROTHES x, Lot 38

ROTHBURY MISS RAMSDEN 5th x, Lot 39

ROTHBURY MISS RAMSDEN 5th x — She is a tremendously thick, good-headed daughter of “Mighty Mr. Modern x.” She was picked by many last summer running with her mother as our top calf. Her mother has been a great old producer and has a top TPS Coronet Keystone x heifer calf with her now. We have three more of her daughters in the herd. Although her name is Miss Ramsden she is actually a Queen, going back to the old Queen Nora cow. She weaned in November at 505 pounds. Sells open with breeding privilege.

ROTHBURY MISS THELMA x — What a female . . . and she lives up to her heritage! Her mother, Kirkbride Thelma was the highest indexing female Syd Coulthard ever had in all the years he was on test. Kembar Bruce was a great breeding grandson of the \$26,000 Calrossie Highland Piper, one of the all-time great stock bulls for Sandy Cross. This young heifer is so correct. We will sure miss her. She can't miss as a brood cow coming from such a high performing family. As for the shows . . . she would give a heifer of any beef breed a hard time. Just a mid-May calf, she weaned in November at 540 pounds. Sells open with breeding privilege.

FROM THE COULTHARD COWS

The next four daughters of "Mighty Mr. Modern" are a group we are very proud to offer. They are a fine tribute to the great breeder, Syd Coulthard.

We purchased 10 top cows all bred alike in Mr. Coulthard's dispersion sale. The reason for this purchase was that Mr. Coulthard lived in a strictly grass area, he fed no grain, yet when he placed bulls in a testing station they performed with the best of them. He was a strong believer in performance testing at his place. To stay they had to pay.

These four daughters of "Mr. Modern," all bred alike and all born within three days of each other, are so right for the times. To test cattle to the degree they have been tested in the past takes years, of which you can take advantage in their future.

FROM THE WILSON FEMALES

The next eight lots are all daughters of "Mr. Modern" from the great Wilson cows. We purchased the entire Wilson herd three years ago, and what a great addition it has made to our herd! They are big, strong females, deep in polled breeding, mostly by the tremendous Hi Way Fantasy x bull.

These eight females are all closely related to "George the Giant x" at KC Farms, as his mother was a double bred Hi Way Fantasy x. Rothbury Royal Crusader x, last year's top-seller, All-American and Chicago first-prize winner that is now in the good herds of Ellis Shafer and By 'n By Farms in Indiana, was sired by a son of Hi Way Fantasy x.

ROTHBURY CLIPPER JEAN 2nd x — She will be one of the biggest cows of the breed when mature. She is also from the famous Fair Clipper line that produced the 2,670 pound Clipper King of Bapton x. Her great grandsire Walnut Fasc Standard 44th x weighed more than 2,500 pounds. Her mother, Oaklynn Clipper Jean x, is a cow you must see at sale time. She is a paternal sister to Rothbury Royal Crusader x our International first-prize spring yearling and All-American that is now in the good herds of By 'n By Farms and Ellis Shafer in Indiana. A bull calf out of Rothbury Clipper Jean 2nd x could give your herd that extra size in a hurry. Sells open with breeding privilege.

ROTHBURY MISS FAIR CLIPPER x — Here is one of the famous Fair Clippers, the same family that produced Clipper King of Bapton x. Rothbury Miss Fair Clipper x will make a great cow. Her mother, Oaklynn Clipper x, is one of our biggest cows and has a tremendous heifer calf by TPS Coronet Keystone x with her now. Sells open with breeding privilege.

Each of these is by the 100 per cent dehorner, "Mighty Mr. Modern x." Rothbury sells all of his best daughters from his first calf crop.

ROTHBURY MISS FLORA x — Miss Flora is extremely long and will make a large cow. She is a sister to Rothbury Wanderer x, the great young bull we sold to Wayne Clark, Wallace Linde and Floyd Allen in North Dakota. He has been classified high AA. He will very likely be an AAA bull when he reaches the proper age. Oaklynn Flora x is one of our best brood cows and has a tremendous bull calf by TPS Coronet Keystone x at foot now. Rothbury Miss Flora x is the kind we are proud to sell. She weighed 610 pounds at weaning. Sells open with breeding privilege.

ROTHBURY MISS CINDERELLA PHYL x — She could be the greatest of them all. Her full brother is in the good herd of Percy Budke at Raymond, Mont. Her grandmother is the mother of Rothbury Dynamic Leader 17th x, the calf that made history at the International Bull sale just a few months ago when a two-thirds interest in him sold at \$6,000 to Mrs. W. C. Pitfield's Saraguay herd, Montreal. He was the first polled bull ever to be a champion at this great sale. Only a few years ago it was our dream to produce a female like this. Now she is here and is offered to you. She will be quickly spotted sale day and, with any luck, will be better known after the next Chicago and Denver shows are history. Just a May calf, her November weight was 515 pounds. Sells open with breeding privilege.

All photographs of

cattle selling in this

sale are amateur,

unretouched, most

of them taken in their

natural state without

grooming or brushing.

Selling on June 14 are, from left, Rothbury Miss Tangerine x, Lot 56, and Rothbury Miss Tangerine 2nd x, Lot 57.

ROTHBURY MISS TANGERINE x — How do you describe a heifer like this? She has always been one of the favorites. She is as modern as they come and should be a top contender at the 1969-70 shows. Her mother has been a great producer and comes from a strong line of cattle. Searle Max Glorious 2nd sired a group of big, rugged bulls that won many championships at the western bull sales. You will agree that this is one of the all-time great polled females ever offered for sale. She weaned at a tremendous 610 pounds. Sells open with breeding privilege.

THOMAS RUBY 131Z x — A good, big growthy daughter of Thomas Max 31V x. We purchased her mother, Thomas Perfect Ruby 16N x, from the Thomases in last year's sale. She is a great old cow by Carona Perfect x, a bull that left the Thomases a tremendous group of cows. Her calves have always been at the top in index. We offer the service of "Mighty Mr. Modern" on this good female. Sells open with breeding privilege.

HOMEDALE S NONPAREIL B x, Lot 64

HOMEDALE S NONPAREIL B x — We went right to the top of our cow herd to offer you this big, young cow. You will all remember the massive white cow Kinnaber sold in last year's sale. She was from the same Beacon line. Homedale S Nonpareil B x weighed 1,520 pounds last fall in medium condition. She will calve by sale time to the \$12,000 TPS Coronet Keystone x. A bull calf from this mating could sure solve your herd bull problems.

TPS CORONET KEYSTONE x — The \$12,000 sire whose ownership we share with Thieman's Polled Shorthorns of Concordia, Mo. 205-day weight, 710 pounds; 365-day weight, 1,090 pounds; 23 months, 10 days, 1,780 pounds.

First polled bull in history to be a Royal champion.

A great treat awaits you at sale time when you view this powerful stock bull. Keystone is a bull with great style, scale, length, bone and probably the most powerful head and eye of any bull of the breed. His first calves are great. One of the first shown by Thieman's was second-prize junior bull calf at Chicago and nominated for All-American honors. A tremendous group of his first daughters just weaned off their mothers have been sold by Thieman's to Acadia Farms.

We now have his first big crop of calves born this spring, as we used him very lightly as a yearling. We felt then that the biggest contribution he could make to the polled breed would be to take him before the public at the shows. He did that job well! He was the first polled bull in history to be a champion at the great Toronto Royal Winter Fair competing with some of the greatest horned cattle in the world.

He will be weighed at sale time. We are betting his weight will be 2,100 plus some, and he is just a three-year-old.

You can share a part of Keystone with us as his valuable service is offered with our sale heifers.

TPS Coronet Keystone x at age 12 months, weighing 1,090 pounds.

TPS Coronet Foundation x, the first calf to be shown sired by TPS Coronet Keystone x. He was second prize junior bull calf at the 1968 International, shown by Thieman's of Concordia, Mo., and is an All-American nominee.

Unretouched amateur photo of TPS Coronet Keystone x at three years of age, taken in the barn lot at Rothbury Farms.

ROTHBURY DYNAMIC LEADER x.

ROTHBURY DYNAMIC LEADER x — He will see service at Rothbury because of his size, thickness and tremendous muscling development. His brother Rothbury Dynamic Leader 2nd x sold at \$4,000 in the 1968 International bull sale to Gloriadale and Petlo Farms in Ontario. See his tremendous white sister, Cardun Queen of Beauty x, that Bob Duncan is selling in this sale.

To talk about his mother would take a lot of space. She won more championships than any female we ever showed. When you see the Queen females we are selling in the sale I think you will agree that she can be called one of the great ones. She is the grandmother or great grandmother of four of them. Rothbury Dynamic Leader x will play a part in our 1969-70 show herd which we plan to exhibit extensively. His service is also offered with the sale females.

ROTHBURY SIR LEADER x

ROTHBURY GOLD LEADER x

We won't go into any detail on this young bull. We would sooner keep him as a surprise at sale time . . . all we will say is that he is a son of "Mr. Modern." His mother is the greatest cow we own. His sister is the many-times champion and All-American Rothbury Augusta B x. No, he is not for sale. He figures highly in our plans for the future. He is a new model! His service could be available with our sale heifers.

ROTHBURY SIR LEADER x — Extra big, long and about as clean-cut as they come, best describes this tremendous young son of Leader 21st x. He is being retained for service at Rothbury because he is not only a modern new model but also his mother was a tremendous female. She was 18 years old when she calved Sir Leader. We don't have a complete record of all her calves, but as Mr. Wilson said when we bought her and his herd, "What a breed this would be if all cows were as dependable as old Lassie . . . she never had a bad one." Ask yourself at sale time, "How many bigger, trimmer two-year-old bulls have you seen?" Some would say Sir Leader needs more bone, but let's be honest; what does this breed need most — his great size, length, trimness and alertness, or more bone! He will head our 1969-70 show herd and his service is offered on our sale females. He should be a 100 per cent dehorner.

This picture should prove that Kinnaber is selling only its choice females. They are all offered June 14.

WELCOME TO KINNABER STOCK FARM

All of us here at Kinnaber are proud of the contribution that our Shorthorns have made to the Shorthorn industry. Tremendous changes are a must in the development of more efficient beef cattle production. We are striving to produce a Shorthorn that will meet these demands in the future.

It is again a real pleasure to be part of this sale with our good friends and neighbors, the Thomases and the Drapers, and to have Bob Duncan with us this year with his good consignment. Every member of these organizations is striving to produce Polled Shorthorns that will keep pace with the future. No challenge is too great to discourage this group. We are very proud of the achievements and determination of both the Drapers and the Duncans to breed better Polled Shorthorns by setting their goal to breed the best. We can recall the days not too long ago when we helped both these firms buy their first Polled Shorthorns. It has been rewarding to see the tremendous progress made in such a short time. The foundation that they are laying and the determination to breed better Shorthorns make them a tower of strength in the industry.

Everyone who has visited the Thomas Farms Shorthorn operation knows the large, sound practical set up they run and also admires the tremendous enthusiasm and thought that they put into breeding better Polled Shorthorns. We feel very fortunate to join with men like them in this sale.

At Kinnaber we have always liked big cattle, and we have never let up in our search for a bigger and better herd sire. When we bought TPS Coronet Leader 21st x, we were in search of a Polled Shorthorn bull that would have the extra size, length and stretch that was going to be in demand in the future. We knew a change had to come. We didn't think it would come so soon and be proclaimed so loudly and clearly. But the change is here and we're proud our cattle are the type demanded today.

No matter what we asked of Leader 21st x, whether it was breeding 100 cows, producing females that could win in the strongest competition, siring stock bulls that would go out and breed equally well or better than he, or producing commercial calves in large numbers to satisfy the practical rancher, which is the real

basis of our industry, he never let us down. We are thankful that we were able to obtain a bull of his calibre. It has certainly meant a tremendous difference in our lives and it has made the Shorthorn business much more rewarding to us. Every member of our family enjoys our cattle and the people who work within the breed.

We have been most fortunate in the last year to meet many more Shorthorn breeders across North America and to sell our cattle from Texas to British Columbia. The acceptance of our cattle by some of the nation's leading breeders has been most rewarding.

Leader 21st x has been a great breeding bull and is producing many great stock bull sons. If you analyze his ancestry, you will see that he is backed up by many big, well-bred, good breeding cattle. His dam was one of the great Shorthorn females of her time.

At Kinnaber we are very proud of our brood cow herd. We have left no stone unturned in North America in search of the best brood cows obtainable. Whether we found them in a herd of 150 or in a herd of 10, if we liked them we tried to buy them. We have made it a must that all our cows not only have size, but also be backed up in their ancestry by cattle of size. We feel that if this great breed of ours is going to compete, our cattle must be big and strong to bear the tremendous demands of competition with superior cattle of all breeds.

Certainly the most rewarding thing to us at Kinnaber is the great job that our cattle have been able to do in the hands of our

customers. Through fair dealing and determination to back our cattle, we have acquired many great friends whom we cherish highly.

Two men have played a part in any success that we have made at Kinnaber. First is Edgar Philpott, our good friend who owns Leader 21st x with us. Edgar and his family spend most of their time striving to produce better beef cattle. Edgar lives near and associates with people in the heart of ranch country and he knows the kind of Shorthorns we must produce to compete on the range with cattle of any breed. He knows that the pretty, little, short-legged animal is inefficient in foraging on the range. He knows that the big, stretchy female with a little more leg (and maybe not the prettiest cow we have been accustomed to seeing) is the kind of cow that will bring in the top calf. The cattle we have secured from Edgar Philpott and developed for him, and the cattle we have purchased from him have been sound investments, because they were selected for performance under practical conditions.

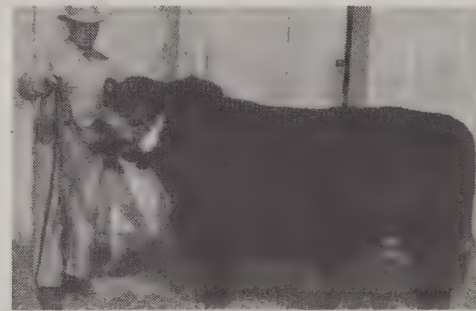

Another man we respect and work closely with is Martin Nold of Gettysburg, S. D. We have associated with Martin over the last three to four years, and presently share the majority of our herd bulls between the two herds. Those of you who know Martin like we do know that he has a broad, sound knowledge of good cattle. Being a veterinarian and working with large herds, he is constantly in touch with cattle of all breeds and sees the kind of cattle that outperform and outproduce other cattle. Being a man who meets

Kinnaber Mayflower 3rd was sold in the 1955 Saskatoon sale to Rejc Bros., Leask, Sask.

Kinnaber Prefect 3rd was supreme champion over all breeds at the 1956 Brandon Futurity Show for Kinnaber Stock Farm.

Kinnaber exhibited the reserve grand champion bull at Brandon, Man., in 1953. He later sold to the Wertz Bros., Bancroft, S. D.

This is the working crew at Kinnaber. From left are Bob and Joyce Gordon's daughters — Lois, Sheila and Shirley — and Wayne and Elearnor's sons — Barry and Brian.

Kinnaber All-Steak by Bap-ton Chancery was second-prize steer of the 1957 Royal Winter Fair.

a challenge, he has endeavored to raise these superior cattle himself. We feel that he has built a basic herd of tremendous strength, and we are proud to be associated with him and to develop many of his cattle for him. Martin never overlooks the opportunity to obtain an animal that can help him in his breeding program, and therefore continually adds strength to his good herd.

It has been a rewarding year for us. We have shown the champion females at Billings, Chicago, Denver, Fort Worth, Winnipeg and Regina and have seen our cattle in the winner's circle at many other North American shows. Also, our customers, the Drapers had the high-selling bull at the Canadian International, the Dregers posted the tremendous average of \$2,900 at the Regina Bull Sale, and the Legges produced the two females that averaged \$2,850 in the KC Farms Sale.

As we travel across the country and visit the many herds using stock bulls and breeding stock purchased from us, including our sons of Leader 21st x, it is very pleasing to see the job they are doing and the enthusiasm of these breeders.

Our association over the last two years with some of the largest ranchers in Montana and Wyoming has broadened our knowledge greatly in what we should be seeking to breed a Shorthorn sought by the practical ranch man. This animal must go out on the range and do the job for the rancher so that he will come back for more.

We feel that you can show a lot of champions and possibly sell a lot of high-priced bulls, but you have never really seen the cattle industry until you associate with these large ranchers. Many have bred cattle not only for their lifetime, but their fathers and grandfathers for generations. A great deal can be learned from these practical-thinking cattlemen. If we study their demands and produce an animal to fulfill them, I'm sure that we will have a great market for this breed of ours.

We at Kinnaber have always been very interested in performance testing. We know that it does not provide all the answers, but it is one way of detecting and evaluating the superior cattle within your herd. The first thing a rancher asks us when we take him to see a group of bulls is "How have the calves been weaning, where were they produced?" This rancher is interested in higher weaning weights. We have found that if the purebred man has not been thinking of performance on his cattle, in most cases the rancher is not interested in doing business, as he must have facts on what he can expect these cattle to do for him.

The white TPS Coronet Leader 21st x towers above some of the most massive brood cows in the business. This snapshot was taken shortly after the bull arrived at Kinnaber.

With the good Lord willing, we hope to continue at Kinnaber with all effort possible to move forward and do our part in producing a better Polled Shorthorn for the future, through fair dealing and backing our product as we strive to do every day.

We feel we have been fortunate over the last few years to obtain outright or interests in Polled Shorthorn herd sires that give us one of the strongest Polled Shorthorn herd bull batteries anywhere.

We enjoy your visit and cherish our many friendships made in the Shorthorn business. Remember, the door is always open at Kinnaber.

We don't know where to start in thanking our many good friends who have helped us both morally and financially in our efforts to produce better Polled Shorthorns.

We do hope you will all be with us for the reception and barbecue on June 13 and the sale on June 14, and that you will plan a visit to Kinnaber either before or after the sale.

**Wayne and Eleanor
Barry and Brian**

**Bob and Joyce
Lois, Shirley, Sheila and Lynn**

THE KINNABER GUARANTEE

Every animal in our consignment is honestly described and accurately illustrated. Each purchase you make must live up to everything we have promised for it and it must give you the service you have a right to expect.

Kinnaber is proud of the reputation it has achieved for standing behind its cattle.

You can be sure if, given proper care by you the purchaser, they do not perform for you, Kinnaber will be the first to want to see them be replaced with cattle that will perform. Our best friends must be our customers.

TPS Coronet Leader 21st x

TPS CORONET LEADER 21st x — The most important things in the Shorthorn industry today are size, performance and polled heads. TPS Coronet Leader 21st x must certainly be recognized as the greatest leader of them all in these three fields. No other bull in the Shorthorn industry is passing on such tremendous growth factors so necessary in the development of modern cattle.

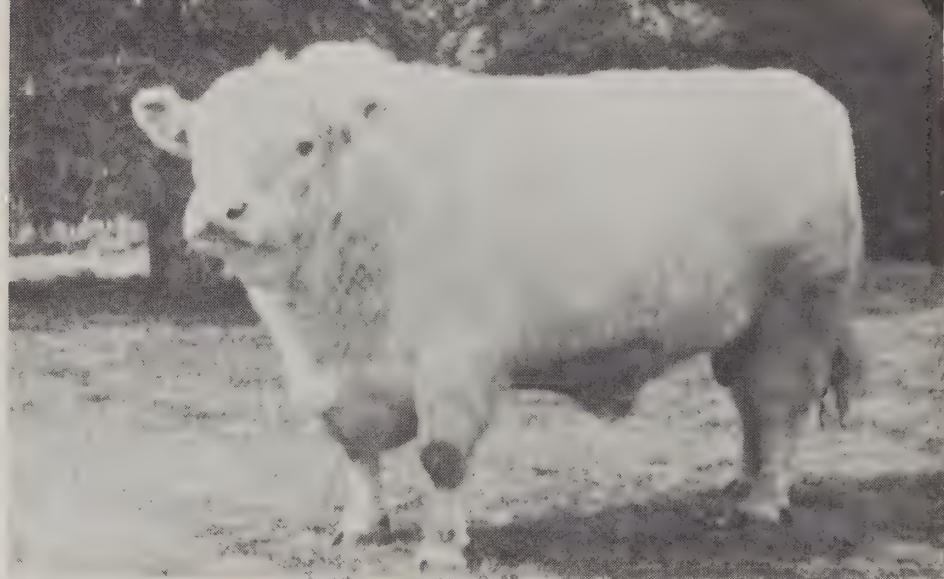

Many offers for him from leading breeders have been refused. He is owned jointly by Edgar Philpott and Kinnaber, with a breeding interest owned by Dr. Martin Nold. He has been used extensively in these three herds. They'll get 100 calves in 1969. All of the best of these calves will be available in the future from Kinnaber.

You can see solid proof of Leader 21st's prepotence as you travel across western Canada and visit the many leading herds that are using his sons. They are tremendously big, growthy stock bulls that are giving these herds the size cattlemen are so urgently seeking. They are stock bulls that are transmitting this great factor on to another generation.

In the field of performance, Leader 21st x has led the way with his sons on performance test. He is the only Polled Shorthorn bull we know of whose sons show above average performance at three separate performance testing stations. At the 1966 Douglas, Man., Performance Testing Station, Leader 21st x sons were among the top gainers, and one set a record as the top-selling bull. This feat was duplicated in 1967 when another son of Leader 21st x was the top-selling bull over all breeds at Douglas. In 1968 a group of Leader 21st x sons were among the top gainers at the Saskatoon Performance Testing Station. In 1967 a son of Leader 21st x was the second top-gaining bull of all breeds and the group of Leader 21st x sons was the second top-gaining group of all breeds. This was in competition with some of the biggest and best Hereford cattle to be found in North America. This is proof that Leader 21st x is producing Polled Shorthorns of the same high performance quality that is being sought all over North America. In 1969 a group of Leader sons are on test at the Montana Performance Testing Station at Stanford, Mont., where they are on a par with the very best of all breeds.

Leader sons and daughters have also been winners in the major shows of North America. Most of his sons have been sold at a young age and are doing a tremendous job as stock bulls in leading herds of the West. Therefore, not many of them have been shown. We felt it was important that these bulls get out and to work. But his daughters have been shown extensively. They have won the championship three years in a row at the Manitoba Polled Shorthorn Sale. A daughter was grand champion female at Winnipeg, Sask., and reserve at the Regina Exhibition. At the 1968 Regina Provincial Exhibition, one of the strongest Shorthorn shows to be found, three Leader daughters were entered and each won a first prize.

Then, as they moved into the U.S. circuit, Leader daughters became grand champion female at Billings, Denver and Ft. Worth. These females are winning because they are the modern type beef admired by cattlemen of all breeds. Not only are they females that can go out and win in the strongest of competition,

TPS CORONET LEADER 21st, AAA

but they are also making tremendous brood cows with extra length, size and femininity, with good udders sought after by the ranch trade.

Leader 21st x is presently leased to American Breeders Service, where he has been bred to more than 30,000 commercial cows. The acceptance of him by these commercial firms has been fantastic. Ranchers can't say enough good things about his daughters.

John Scott, Billings, Mont., has 1,200 calves by Leader 21st x. A large group of these calves were sold recently at record prices. Gerald Biggs, Jordan, Mont., has gotten 800 calves by him. A California rancher bred 1,400 cows to him in each of two years. Niel McKinnon, Bassano, Alta., has bred 250 heifers a year to Leader for the last three years.

When we purchased Leader 21st x, we were determined to find somewhere the Shorthorn that had the extra size so necessary to compete with other breeds in the future. We had used many good-sized bulls before TPS Coronet Leader 21st x, but we were not satisfied that we were getting the extra size that we wanted built into our cattle. We have been fortunate in getting these much sought-after qualities in Leader 21st x. Not only has he been responsible for a great deal of improvement in our own herd, but we feel he is also responsible for a whole new era for Shorthorns.

Left — "George the Giant x" by TPS Coronet Leader 21st x is senior stock bull for Kinnaber and KC Shorthorns, Kansas City, Mo.

Right — "Mighty Mr. Modern x" by TPS Coronet Leader 21st x is in service for R. J. Draper and Sons, Elgin, the \$6,000 (for 2/3) Rothbury Dynamic Leader 17th x.

All of These Sons of TPS Coronet Leader 21st x Are Now in Service

KINNABER LEADER 5th x

This is the 100 per cent dehorning "Mighty Mr. Modern" in service for R. J. Draper and Sons, Elgin, Man. Among others, he sired the \$6,000 Rothbury Dynamic Leader 17th x. For more on the 5th see page 52.

KINNABER LEADER 6th x

Now in service for Thomas Farms, Hartney, Man. Read his history on page 26. Formerly used by Alf Dreger, Lorie, Sask., his sons at Regina averaged \$2,900 this year. Two sold to Colomeadow, Byers, Colo., and Remitall, Olds, Alta. See him at Thomases on sale day.

KINNABER LEADER 3rd x

"George the Giant x" owned jointly with Kinnaber and KC

Shorthorns, Kansas City, Mo. Daughters of this 100 per cent dehorner sold in the Gordon draft in the KC sale at \$3,200 and \$2,500. See page 116. He was originally used by W. K. Legge, Willmar, Sask., who has a wonderful group of his daughters.

KINNABER LEADER 10th x

Owned by Alex Clancie, Calder, Sask., he is a 100 per cent dehorner. He went to William Melenka, Andrew, Alta., with most of the Clancie herd, while Clancie retained a number of his daughters.

WESTON TRADEMARK 2nd x

Owned by Keith Croy and Val Kjeirnstead, Stonewall, Man., who report his first calves are great! One-third is retained by Kinnaber and his service is

available on sale females. See page 129 for more of this exciting story.

WESTON TRADEMARK 3rd x

An extremely big bull being used by Dr. Martin Nold, Gettysburg, S.D., he has caused more interest in Shorthorns from Hereford men in that area than any beef bull in the last 10 years.

KINNABER LEADER 26th x

The sensational calf sold to Don Stout, Kremlin, Okla., that, at his present rate of gain, will weigh more than 1,100 pounds at a year!

BUTTE LEE LEADER 28th x

The top-selling bull of the 1967 Regina sale to Syd Foster, North Battleford, Sask. He's doing a

grand job in this large ranch herd.

BUTTE LEE LEADER 73rd x

A half interest and possession is owned by Tom Schrag, Burrton, Kan. We have a great confidence in this powerful young calf.

CANDUN LEADER 9th

The big son of Leader 21st x sold to Hart Farm, Waxahachie, Tex. He's already made many friends in this important ranch country.

BUTTE LEE LEADER 63rd x "Tiny Tim"

It's worth the trip to the sale just to see him at Kinnaber sale weekend. He is owned jointly with John McKee, Neepawa, Man., and KC Shorthorns, Kansas City, Mo., who will have

Left — Kinnaber Leader 6th x by TPS Coronet Leader 21st x is the junior stock bull for Thomas Farms, Hartney, Man. Be sure to see him sale day.

in Leading Herds Throughout North America

possession after the summer shows. See him at the fall shows. A bigger, better Shorthorn has not been exposed in a long time.

WESTON TRADEMARK x

He is a full brother to Kinnaber Leader 26th x owned by Don Stout. Trademark is now owned by Irvin Halverson, Peerless, Mont.

KINNABER LEADER 13th x

He is a bull brother to Kinnaber Dana Coronita 2nd x, the sensational heifer that was grand champion at Denver. The 13th x is but one of the many Leader 21st x sons purchased by Irvin Halverson, Peerless, Mont.

BUTTE LEE LEADER 36th x

Second top-gaining bull of all breeds at the Saskatoon, Sask., Test Station. He was second

prize and sold for \$2,000 in the Canadian International bull sale to Lindsay Haug, Browning, Sask.

BUTTE LEE LEADER 52nd x

Sold to W. J. Small and Barry Andrews, Craven, Sask. He is a full brother to Butte Lee Flora 3rd x that won at many of the major western Canadian shows last summer.

BUTTE LEE LEADER 2nd x

He did a wonderful job in the Small and Andrews herd in Saskatchewan. A son will be a star of the summer Kinnaber show herd. The reserve grand champion at the recent Regina show was also by Leader 2nd x.

DANDY LEADER 4Z x

Recently sold to John Morari and Alex Clancie, Calder, Sask.

BUTTE LEE LEADER 16th x

The top-selling Shorthorn bull ever sold at the Douglas, Man., Performance Indexing Station at \$1,600 to Searle Farms, East Selkirk, Man.

KINNABER LEADER 11th x

He is a full brother to Kinnaber Edgar's Leader x, used in the Cammaert and Dahm herds in Alberta and to Kinnaber Leader 17th x owned by Harold Hoffstrand, Leeds, N.D. The 11th x has worked well for Daniel and Phyllis Gerein, Candiack, Sask.

KINNABER EDGAR'S LEADER x

Used by Cammaert and Dahm of Alberta and the sire of an excellent group of heifers. Full brothers are Kinnaber Leader 11th x, owned by Daniel Gerein

of Saskatchewan and Kinnaber Leader 17th x, used by Harold Hofstrand, Leeds, N.D.

KINNABER LEADER 35th x

A very growthy bull that was third top-selling bull in the 1968 Regina bull sale to Albert Gerein, Kegsworth, Sask., one of the West's large commercial herds.

KINNABER LEADER 19th x

He was purchased by W. K. Legge & Sons, Willmar, Sask., to follow "George the Giant x." He is a full brother to the featured Gordon heifer in this sale, Kinnaber Emma Coronita x.

BUTTE LEE LEADER 46th x

Used by Lorenze Schneider and Sons, Wolseley, Sask., he was

Left — Butte Lee Leader 66th x by TPS Coronet Leader 21st x is owned by Noltimier Polled Shorthorns, Churchs Ferry, N.D.

Right — Butte Lee Leader 63rd x ("Tiny Tim") by TPS Coronet Leader 21st x is owned jointly by John McKee, Neepawa, Man., KC Shorthorns, Kansas City, Mo., and Kinnaber. Be sure to see him sale weekend.

Butte Lee Leader 16th was the top-selling Shorthorn bull ever at Douglas, Man., when he sold to Searle Farms, East Selkirk, Man.

the top-selling bull at the Douglas Indexing Station in 1967 and was one of the highest performing bulls at that station.

BUTTE LEE LEADER 54th x
Also in service for Lorenze Schneider and Sons, Wolseley, Sask.

BUTTE LEE LEADER 66th x
In service for Noltimier Polled Shorthorns, Churchs Ferry, N.D., he is noted for his muscling.

KINNABER LEADER 16th x
Used by Clarence Lindgren, Estavan, Sask. He is a full brother to the noted Draper stock bull, Kinnaber Leader 5th x, "Mighty Mr. Modern x."

BUTTE LEE LEADER 38th x
Performance tested at the Saskatoon Test Station and sold to Ken Torkelson, Beaubier, Sask.

KINNABER LEADER 17th x

He's the bull doing so well for Harold Hofstrand and Sons, Leeds, N.D. Full brothers are Kinnaber Edgar's Leader x, used by Cammaert and Dahm of Alberta and Kinnaber Leader 11th x, used by Daniel Gerein of Saskatchewan.

CANDUN WHITE LEADER x

This good white bull is being used by Bob Duncan, Ebor, Man., who brings his first draft to this sale this year.

OTHERS USING LEADER 21st x sons are:

JOHN SCOTT

**This Montana rancher has se-
lected about 20 sons of Leader
21st to use in his vast ranching
operation.**

We could go on and on mentioning the scores of Leader 21st x sons that are working improvement throughout North America. We sincerely apologize to those good herds that we might have inadvertently omitted but we have tried to show the wide scope of the Leader 21st x influence.

It's easy to call any bull a great sire. He must, however, be proved by the achievements of his progeny. Leader 21st x is proven by the number of real cattlemen who have selected his sons and who have used his semen extensively in their commercial herds. His progeny have won the strongest shows and topped the strongest performance tests in North America.

Visit any of the men using a Kinnaber stock bull. Their enthusiasm will amaze you.

**Butte Lee 28th x by TPS Coronet Leader 21st x
topped the 1967 Regina sale and sold to Syd Foster,
North Battleford, Sask.**

KINNABER LEADER 25th x — He's a full brother to "George the Giant". Need we say more? This young stock bull is long, trim, and modern with a herd bull's head. He can head the best of herds. If he breeds just half as well as his full brother did for W. K. Legge, you'll have made one of your best investments. We should keep an interest in this great prospect, but with his full brother, George x and his sire, Leader 21st x, both available to us, we offer him outright to you so that two or more herds can combine to purchase this great prospect.

KINNABER LEADER 21st x — A beautifully balanced son of TPS Coronet Leader 21st x from a line of cattle with size, smoothness and good udders bred into them. We lost his dam and he was weaned young, but he has the ability to grow. Certainly he is a modern bull that can help many herds. His weight will be announced sale day. He'll mature at more than a ton. This bull could make an excellent show bull for the 1969-70 shows and has all the potential to be a great breeding bull.

KINNABER LEADER 21st x, Lot 66

CARIG MAUDETTE 3rd x — Yes, we are crazy to even offer this great cow for sale. Only to make this the best Polled Shorthorn offering ever, do we sell her. She has been admired by leading breeders from all over North America. A sounder, better producing cow we doubt has ever been offered. We can guarantee this cow in every way. She produced three polled bulls by Leader 21st x. The first certainly one of the best to be found — Kinnaber Leader 5th x, "Mighty Mr. Modern", and she is no doubt largely responsible for the tremendous way he is breeding. The second weighed 510 pounds at five months. A great calf, he died of pneumonia at Douglas Test Station. The third is stock bull for Clarence Lindgren, Estevan, Sask. Her last calf by TPS Coronet Keystone x sold to J & S Farms, Columbia, Mo. last fall. Last year we sold the dams of the noted stock bulls Kinnaber Leader 6th x and Kinnaber Leader 9th x. The dam of "George the Giant" also sold last year because we offer only our best. If we did not have so many great polled brood cows at Kinnaber, we could not consider offering Carig Maudette x, but in line with our policy of offering our best, here she is. No distance is too great to come to buy this magnificent female. No matter what you expect, she'll not disappoint you. She is an easy keeper, a heavy milker, regular breeder, and do her calves ever grow! Carig White Cloud x left many great females. Many feel this is his best and is among one of the 10 best polled cows anywhere. No one can put a value on a female such as this. She calved an outstanding dark roan horned bull calf, April 17, 1969. This calf has potential to head many good herds looking for a top horned bull prospect. She has had four polled bulls in a row and will probably never have another horned calf. Semen will be provided to rebreed her to TPS Coronet Leader 21st x.

This is Kinnaber Leader 5th x, better known as "Mighty Mr. Modern," senior stock bull for R. J. Draper and Sons, Rothbury Farms, Elgin, Man. In a startling offer, his dam sells as Lot 67.

Carig Maudette 3rd x must rank as one of the all-time great brood cows of any beef breed. She is the dam of Kinnaber Leader 5th x and sells as Lot 67.

TPS Coronet Leader 21st x sired the winning get-of-sire at the Northern International Livestock Exposition in Billings, Mont., last November. Second from left in that get is Kinnaber Emma Coronita x, the feature two-year-old of this sale. She sells as Lot 68.

Kinnaber holds back nothing to make this the greatest Polled Shorthorn sale of all time. Six daughters of TPS Coronet Leader 21st x sell! Every one should remain at Kinnaber!

KINNABER EMMA CORONITA x — We do not want to over-emphasize the word great, and we want all our cattle to back up their footnotes. We believe they will. Why don't you challenge us and see for yourself? We also don't want you to think we think we have all the good cattle to be sold this year. But honestly, fellow breeders, Emma Coronita has got to be one of the greatest Polled Shorthorn females offered in some time. Leading cattlemen from all over America have called her just that. Her extreme length, trimness and wonderful quality will amaze you. In the same corral as the Denver champion Dana Coronita and the Northern International champion Butte Lee Pansy, she is chosen as the best female. Dana Coronita was second to Emma at the Saskatoon summer show. We realize now she should have been out at more major 1968-1969 shows. Her dam never has a poor calf and she has a beautiful full sister to Emma at her side. Her last year's bull, one of our best, was chosen by the Legge family when "George the Giant" went to KC Shorthorns. We reserve show rights on this heifer through to the 1969 Regina International Show. She is bred to Kinnaber Leader 9th x. She is the model type in a modern female, the kind seldom bred and hardly ever offered for sale. She weighed 1,170 pounds official weight at 17 months.

Kinnaber Emma Coronita x, Lot 68, is shown here as she looked winning her class at the 1968 Saskatoon Summer Exhibition.

Butte Lee Pansy 2nd x above, was grand champion of the 1968 Northern International Livestock Exposition. She is one of the sought-after daughters of TPS Coronet Leader 21st x. Butte Lee Freda 2nd x, Lot 69, is very similar to Butte Lee Pansy 2nd x. It was a toss-up as to which heifer would be shown, and we could have been wrong, since there is mixed opinion as to which is the better female today.

BUTTE LEE FREDA 2nd x — This big, strong, future brood cow will certainly be one of the better females offered. She would have definitely been in our show herd this year, but is due to calve on July 10 to Clipper King of U.S.A. x, AAA. What a tremendous cross this should be. The Leader 21st x — Clipper King x cross is giving us some tremendous cattle. She comes from a very strong breeding family tracing to the Butte Lee Floss', who have proven to be some of our best brood cows. Q K Trend 3rd x left many big, smooth, strong, good-uddered cows at both Kinnaber and Edgar Philpott, many of which are still in both herds. This female is the same kind as Kinnaber Dana Coronita 2nd x and possibly is even a little growthier. She will certainly make one of the great brood cows anywhere in the future. We are sure she is good enough to go to any herd in North America. Study her carefully. She is worth coming a long way to buy. Time did not permit a photo of this heifer, but if you come expecting a great female, you'll not be disappointed.

KINNABER RITA CORONITA x — It hurts to sell a female of this calibre and whoever is fortunate enough to get this great, potential young female is certainly going to benefit greatly from her. She has tremendous length, with an abundance of quality. Her dam, that is now 14 years old, is still as fresh as ever and is one of the best brood cows in the herd. You must see her in the Kinnaber cow herd. She has been a consistent producer of top animals, both bulls and females. She is big and sound with a very good udder similar to that of Leader 21st x's mother, so the blend of these two bloodlines, we're sure, cannot help but give you a great brood cow. Killearn Alberta Max traces to the great Killearn Max 5th bred by Claude Gallinger. Very few females of this breeding are left in North America and we feel that this blood blend can give you a tremendous breeding female of a new line. Here is one of our best show prospects and will show well at the leading 1969-70 shows. We can't take them all on the road but here is one that should be there.

KINNABER LILY CORONITA x — It's hard to tell which of the TPS Coronet Leader 21st x daughters will be our best show prospect for 1969-70. But we have to be honest and say that Lily Coronita x to date is our favorite. Certainly, she is a tremendous female, true in every way, with tremendous size, growth, style and quality. We are sure she is going to be rough competition in the 1969-70 shows. Her dam, one of our best producing females, is also the dam of Kodiak 2nd x, in service in the Thomas herd. She is deep in polled breeding of size, soundness and growing ability. We wish to retain show rights on this female through the 1969-70 major shows which will include Chicago, Denver and Fort Worth. We would like, if arrangements can be made, to retain show rights on this heifer for the 1970 shows, but delivery may be taken after the 1970 Fort Worth Stock show. We offer her with breeding privilege to any Kinnaber stock bull. Has anyone ever sold a female with more potential? We doubt it. She is bred right. She's made right, and we feel that she will certainly do right for you. She could well be the female to beat in the 1969-70 shows. None of our 1968-69 heifers showed as much potential at the same age as this female. No matter what you pay for her, we are sure you won't sell her for twice that after the 1970 show results.

KINNABER LILY CORONITA x, Lot 71.

This is how Kinnaber Dana Coronita 2nd x looked as grand champion of the 1969 National Western. She sold in the 1968 sale to Harold Wenzel and Sons, Langdon, N. D. She will be on display at Kinnaber on sale day when her full-sister sells as Lot 72.

KINNABER DANA CORONITA 3rd x — We at Kinnaber have no right to part with this female. Only to make this one of the best sales ever have we consented to offer her. Yes, she has as much potential as the great 1969 Denver and Fort Worth champion that was her full-sister, Kinnaber Dana Coronita 2nd x. This is definitely one of the best females we have ever produced and could possibly be even better than her full-sister that was so popular in the 1969 shows. The dam of this female is certainly one of our best breeding females that consistently comes up with top calves. Her sire was the 2,150-pound bull Butte Lee Titan x and he in turn was by a 2,100-pound bull. Who will be fortunate enough to own this great female? She has the potential to write breed history. She is offered with breeding privilege. We are sure that bred to the Kinnaber stock bull of your choice, something great is bound to happen. Kinnaber Dana Coronita 2nd x was sold in our last year's sale to Bruce Wenzel, Langdon, N.D. He has refused many offers for her at a handsome profit. We wish to reserve show rights on this female through the 1969 summer Canadian shows and through Chicago, Denver and Fort Worth in 1970. Much more could be said about this female but come and see her yourself on June 14. Certainly she will be one of the attractions.

This is how Clipper King of USA x looked winning his class at the 1968 National Western. He is among the featured service sires of the Kinnaber draft.

BUTTE LEE CHARITY x — Has this female ever got potential! Her style and class make her always an eye-catcher. She will be one of the tops for the 1969-70 shows. Again this year, like last year, it has been hard for us to choose our best TPS Coronet Leader 21st x heifers for the show herd. This great young, white heifer shows as much promise as any female we have. She lacks a little in age, but certainly nothing in quality. We would like to **reserve show rights** on her through the summer Regina shows. It's a must she be at the 1969-70 National shows and we reserve the right to select her for our show herd through Ft. Worth. She is offered with breeding privilege. Remember, we are holding back nothing for this sale and are offering only the best we have produced.

CUMBERLAND EDITH GALAXY x — This growthy female is sired by TPS Coronet Galaxy 10th x, a bull that is siring a lot of modern Polled Shorthorns with unusual length. Her dam, Cumberland Edith Supreme x, is from the same cow as Cumberland Gay Lad x, the bull that did such a good job for the Batemans, Craven, Sask., and now for the Mortons and Campbells of Craven and Lumsden, Sask. Also a full brother to Cumberland Gateman x, the bull that was sold to the B.C.I.A. stud in our last year's sale and was high gaining Shorthorn bull in the 1968 Douglas Testing Station. This female has evidence of being a real top brood cow and offered with breeding privilege. This will make a real combination for somebody to invest their money in a good female and come up with a future herd sire. **We reserve show rights** on this female through the 1970 Fort Worth, Tex. show.

KINNABER LEADER 3rd x ("George the Giant") — Here is the bull everyone is talking about and certainly he's one of the best sons yet of TPS Coronet Leader 21st x. A 100 per cent dehorner, he was originally sold to W. K. Legge, Willmar, Sask. He was repurchased late in 1968 and today is owned by Kinnaber and by KC Shorthorns, Kansas City, Mo., who have possession. Two daughters sold in the Kinnaber draft to the KC March sale to Dr. A. R. Haight, Cumming, Ga. They brought \$3,200 and \$2,500 respectively. George was acclaimed by Shorthorn and Polled Shorthorn breeders alike for his exceptional size, substance and quality. His dam is a big cow that carries two crosses of Millhills Fantasy and Kinsman, one of the biggest bulls ever developed in Scotland. Further, there's proof of his ability as a sire. Three daughters and his full brother sell as special sale features. Whether you breed Shorthorns or Polled Shorthorns or both, this is a bull whose progeny you must see. Study them carefully at Kinnaber on sale weekend.

KINNABER LEADER 3rd x, "GEORGE THE GIANT"

These three daughters of "George the Giant x" all sell on June 14. From left are Green Bluff Mary 2nd x, Lot 78; Green Bluff Lady 4th x, Lot 76, and Green Bluff Tess 3rd x, Lot 77.

GREEN BLUFF LADY 4th x — Sells open with breeding privilege.

Green Bluff Millie x by "George the Giant x" topped the Kinnaber consignment to the March KC Shorthorn sale at \$3,200 to Dr. A. R. Haight, Gumtree Farms, Cumming, Ga. She is the first daughter of "George the Giant x" ever to sell at public auction.

Kinnaber takes great pride in offering these three tremendous females to you by the massive "George the Giant x," which are offered through the cooperation of the Legge Family, Wilmar, Sask., who used George so successfully before he went to KC Farms and Kinnaber. Their determination to breed Shorthorns with extra size has played a large part in the development of these females along with the tremendous breeding ability of "George the Giant x," to size extra large quality Polled Shorthorns. They will sell with breeding privilege to any of the Kinnaber stock bulls. We feel two of these females are the equal of the \$2,500 Green Bluff Nancy x which sold to Dr. A. R. Haight, Cumming, Ga.

Green Bluff Nancy x by "George the Giant x" sold in the Kinnaber consignment to the March KC Shorthorn sale at \$2,500 to Dr. A. R. Haight, Cumming, Ga. Three half-sisters sell as Lots 76, 77 and 78.

EDGECREEK BEAUTY 3Z x — A half sister by the same sire as our \$2,700 Edgecreek Fashion 5Z x, in the 1969 KC sale. A heifer of similar type, she shows evidence of being an excellent polled brood cow prospect. Sells with breeding privilege.

BUTTE LEE PIXIE x, Lot 80

BUTTE LEE PIXIE x — A quality, growthy female from one of TPS Coronet Leader 21st x's better daughters. Are these Leader 21st x females ever making good brood cows — big and clean and feminine and good milkers. They are breeding very well to Kodiak 2nd x. Two bulls of this same blood blend are gaining 3.51 and 3.21 pounds a day respectively at the Sheridan, Wyo., BIAS test station. We wish **to retain show rights** on this heifer at least until after the 1969 Regina International and possibly through to the 1970 Fort Worth show. It will be announced sale day. Offered with breeding privilege to any one of our large, strong herd bull battery. You'll like this one.

Weston Trademark 2nd x — One of the most promising calves we ever sold by Leader 21st x. He sold to Keith Croy and Val Kjernisted, of Stonewall, Man., with an interest retained by Kinnaber. This bull has developed as we expected and carries as strong a heritage of good breeding as any polled bull to be found today. His dam was sired by a bull bred by the late Frank Jackson, Hurley, S. D., who was truly a breed builder. His cattle would have been in great demand today for their tremendous size, scale, brood cow qualities and great length. A half-brother to Weston Trademark 2nd x is one of the top Polled Shorthorn bulls in the Martin Nold herd, Gettysburg, S. D. This bull's first calves have arrived at the Croy and Kjernisted farms and are most promising. You will hear a great deal of this tremendous bull in the future. He'll play an important role in the future of Kinnaber and of the breed. His service is available with open females selling.

CLIPPER KING OF U.S.A. x, AAA

CLIPPER KING OF U.S.A. x — When we purchased Clipper King of U.S.A. x, we were in search of a Polled Shorthorn bull with size, tremendous bone and thick rear quarters. Anyone who has seen him knows we got it in Clipper King of U.S.A. x. An All-American, first-prize winner at Denver and classified AAA, he weighed 2,170 pounds at three years. He is transmitting bone, soundness and thickness to his calves through many daughters of TPS Coronet Leader 21st x. With Leader 21st x and his many sons available to us, we decided to sell an interest in Clipper King of U.S.A. to Don Stout and Vic Taylor of Oklahoma. Naturally, a one-third interest was retained to continue his use artificially at Kinnaber. Six sons of Clipper King of U.S.A. x were born at Kinnaber in 1968. Five of them have already been sold. Of the five sold, Kinnaber Clipper King x went to William & Victor Melenka,

Andrew, Alta.; another son sold to Don Stout, Kremlin, Okla.; Kinnaber Clipper King 3rd x went to Lea McDonald, Tabor, Alta.; Kinnaber Clipper King 4th x went to Hart Farm, Waxahachie, Tex.; and another went to Milton Dietz, WaKeeney, Kan. Many of the young calves at Kinnaber at sale time will be by Clipper King of U.S.A. x. His daughters from 1968 have been sold in 1969 across the entire North American continent. Four went to Jack Reed, Kansas City, Mo.; two to Fuhrman Farms, Mound City, Mo.; two went to Lea McDonald, Tabor, Alta.; one to Vic Taylor, Yukon, Okla.; and two to Don Stout. Sired by the massive Clipper King of Bapton x, and tracing to Killearn Max Juggler x on the dam's side, Clipper King of U.S.A. x is outcrossed so that he will transmit the size from these two great lines of cattle to his progeny. This he is doing. His service is available on the open heifers from Kinnaber selling June 14.

TPS CORONET LEADER 61st x

KINNABER LEADER 9th x

He is another 100 per cent dehorning son of TPS Coronet Leader 21st x in service at Kinnaber. He is a full brother to Kinnaber Leader 6th x in service at Thomas Farms. Without question, the 9th x is one of the 21st's largest sons. He will be used extensively at Kinnaber in the future. His service is available on the open heifers selling and the feature two-year-old heifer is in calf to him.

TPS CORONET LEADER 61st x — He is by Coronet Max Leader x, himself, and weighed 2,100 pounds at 38 months when he was classified high AA (89). The only reason he did not make the AAA rating is that he was too young at the time. The 61st x is a half brother to the "sire of sires," TPS Coronet Leader 21st x, and is from one of Thieman's best cows by TPS Coronet Leader 10th x. Now a four-year-old, he is a proven sire of big, modern Polled Shorthorns that have sold from Washington to Missouri. He is owned jointly by Wilbur S. Schrader, Clyde, N. D., who has possession, with semen interests owned by Kinnaber and by Dr. Martin Nold, Gettysburg, S. D. His service is available on the open females in the sale. A supply of semen is stored in the United States for the convenience of American buyers.

WELCOME FROM CANDUN

We want to express our appreciation to the Thomases, Gordons and Drapers for the privilege of selling cattle in their sale. We sincerely hope our cattle will meet the high standards they have set for themselves.

The introduction of polled cattle into our breeding program came with the purchase of TPS Coronet Leader 20th x, a seven-eighths brother to TPS Coronet Leader 21st x, from Harold Thieman. His dam, Nonpareil Lady 138th, was the initial female of the potent Nonpareils in the Thieman herd. His sire was the famous Coronet Max Leader x. As a four-year-old at the time of purchase he came out of the pasture at 1,910 pounds. His sons have been used in some top pure-bred herds. One grandson of Leader 20th x recently sold from the herd of Harold Thieman at \$6,000. In 1968 the top-selling polled bull in North America at public auction (Rothbury Dynamic Leader 2nd x) was sired by TPS Coronet Leader 20th x and sold to the Ken Gunters of Trenton, Ontario, and to Gloriadale Farms, Port Hope, Ontario. Many of his sons have sold to progressive-thinking ranchers in Montana who are looking for bulls with extra size and length.

Candun White Leader x by TPS Coronet Leader 21st x and out of Carig Queen of Beauty x by Carig White Cloud x has also been used extensively in our breeding program. He has purchased some outstanding calves. The Carig White Cloud x line produced the \$3,500 Boa Kae White Tornado x and the best pair of bulls at the 1969 Canadian International.

The polled females we purchased came from the Gordons, Thomases, Edgar Philpott and Harvey Fulton, all men who are dedicated to raising bigger, high-performing cattle. These cattle are forming a base from which to produce the kind of bulls and females that will compete with the higher-gaining cattle of other breeds. The sale cattle we are offering will make a productive contribution towards the herds of their new owners.

Bob & Bev Duncan & Family
Candun Polled Shorthorns

Left—Kelburn Great Event must rank as one of the all-time great Shorthorn stock bulls. His blood is available in polled form through Lot 89, Jimola Leader 2nd x.

Right—Carig White Cloud x was senior stock bull at Boa-Kae Ranch, Irricana, Alta. This was the line that produced Boa Kae White Tornado x that sold at \$3,500 to Four Dees Farms, Allerton, Ill., and the two Boa Kae bulls that became the first polled winners of the best pair trophy at the Canadian International Bull sale. He is grandsire of Lot 89, Jimola Leader 2nd x.

Remitall Silver Beauty
Remitall Cattle Co.

JIMOLA LEADER 2nd x — This calf is contributed by Bob Duncan who keeps a small group of cows along with ours. The bull weaned at 635 pounds at 236 days and has length and conformation along with an above-average weaning weight. His dam is a good milker with extra size and length. Both granddams are two of our top-producing cows and the grandsires need no introduction to anyone in the cattle business. The Latimers have recently purchased a grandson of TPS Coronet Leader 21st x to be used in their herd and this combination of Great Event and Leader 21st x speaks for itself.

CANDUN QUEEN OF BEAUTY 3Y x, Lot 90.

CANDUN QUEEN OF BEAUTY 3Y x — Probably the most outstanding heifer we have raised to date, indexed 120 at weaning. She has just dropped a white heifer calf by Rothbury Royal Crusader x, the top-selling bull in last year's sale. She was shown by the Drapers last year without being fitted and attracted much attention for her extra size and length and very feminine appearance. **We would like to reserve show rights** on this heifer if the buyer is willing. She will make a top female in any herd. Larry Hart's new herd bull, Candun Leader 9th, is out of her granddam.

Here is what our customers have to say!

INDIANA

Dear John:

Congratulations on breeding and showing the reserve champion and top selling bull at the Canadian International Bull Sale. This is putting good polled cattle where they are needed - on top!

We have never had a bull adapt to a new home as fast as Rothbury Royal Crusader x. Since we brought him home from the International, he has been busy eating, growing, and breeding cows. He is one of the most active breeding bulls we have ever owned and is excellent on settling the cows. We are anxiously awaiting his first offspring. Everyone has commented on Crusader's balance, size, thickness, length of rump, and meaty quarters. We were happy when he won reserve All-American honors.

The Snorthorn breed can be proud of your outstanding work.

Yours truly,

Bob Bye
By 'n By Farm
Union Mills, Ind.

NORTH DAKOTA

Dear Harris:

Since our herd selection is based upon performance, we considered ourselves very fortunate in being able to purchase a large group of females in the last two Thomas production sales. Upon completion of the 140-day home test, two calves from the Thomas herd have been our top-gainers for the 1968 and 1969 weighing seasons.

Our current sires are Thomas Leader 28th x, a 100% dehornor that weighed 1,960 pounds on his fourth birthday, and Butte Lee Leader 66th x that weighed 1,665 pounds at 22 months.

We are very grateful to these fine folks for their encouragement and guidance towards the establishment of our new herd.

Sincerely,

Don Noltimier
Churchs Ferry, N.D.

TEXAS

Dear Bob:

As a major owner of Kinnaber blood, I want you to know what we think about them.

We first bought Bonnyview Daffodil 18Y x at your sale last June and waited to see what you and KC could do with her at the International. We didn't even go. How the devil could we know we had the grand champion! Then, a reserve championship in Denver and a class winner in Houston. Now she is All-American!

As good as Bonnyview Daffodil is, Buck thinks your Butte Lee Constance x will make just as good a brood cow. They both have that extra size we have been emphasizing for years, and which all of a sudden is getting contagious.

You phoned me about a bull and I said, "We don't need another bull." Thank goodness you persisted and asked, "Could you use a bull that would add a hundred pounds to your calves." I took your word for it and got Candun Leader 9th by Leader 21st x. We figure that nub of a horn he has saved us \$3,000-\$4,000.

We also have a little 1,600 pound Kinnaber cow with a bull calf, Kinnaber Clipper King 4th x by Clipper King of U.S.A. x. He will spend his life at Hart Farm.

Our 11 Kinnaber heifers are of the quality of those that sold at KC for an average of \$2,800. These daughters of TPS Coronet Leader 21st x and his sons, Butte Lee Bold Leader x, TPS Coronet Galaxy and Kodiak 2nd x, will lift Hart Farm a couple notches up the ladder of excellence and size. The blood of Butte Lee Bold Leader x and Kodiak 2nd x can't help but make their calves growthy.

Larry A. Hart
Hart Farm
Waxahachie, Texas

ALBERTA

Dear Harris:

We have been breeding Shorthorns for approximately 10 years and are well on our way to establishing a herd of all white Shorthorns. In the fall of 1967 I purchased Kinnaber Kodiak x from Gordon Bros. He is developing into a big, growthy animal and I am real pleased with him. Last year I bred 10 head of commercial heifers to him and the calves are on the ground now. They look real good and it appears that he is going to be a real dehorner. Last June at the Thomas, Gordon, Draper sale I purchased the old Royal Jennie cow and her calf Kinnaber Jennie 2nd x.

I really liked the size and scale in this line of cattle and I believe the calf is going to develop into the same type of a cow as her mother. Royal Jennie x had a bull calf born April 16 of this year and he is a cracker.

I really like the type of cattle that the Gordon Bros. are developing and feel they have a real modern approach in the purebreds for the beef industry. As a matter of fact, I was so pleased with their type of cattle that last fall I went down to Gordons and bought three female yearling heifers, a two-year-old heifer and two yearling bulls. I believe the females will give me a real good foundation for a purebred herd. The bulls, one a son of Leader 21st x and the other a son of Clipper King of U.S.A. x, will add a lot to my commercial herd.

Lea H. MacDonald
Tabor, Alberta

SASKATCHEWAN

Dear Bob:

Four years ago I was at the point of turning my purebred herd into a commercial one and crossbreeding to get more size. When I saw Kinnaber Leader 3rd x, "George the Giant", I changed my mind, as he had the size I was looking for. He has done extremely well for me. I put most of his first calf crop in the feed lot and they averaged out 100 pounds more than any feeders I had ever had. His heifers came off the grass at 19 months weighing 950 to 1,150 pounds. I was pleased with the way Green Bluff Millie x and Green Bluff Nancy x were accepted by the breeders at KC sale this spring.

Cumberland Ranch Hand x that I bought from you is a tremendously long, smooth, deep-fleshed bull. His first calves born this spring from the Leader 3rd x heifers look good.

The bull calf Kinnaber Leader 19th x appears to have the potential to take the place of Kinnaber Leader 3rd x of whom a neighbor said, "He never left one poor calf."

I wish you success with your sale June 14.

Yours truly,

W. K. Legge
Willmar, Sask.

MISSOURI

Dear Bob:

We selected Kinnaber Leader 3rd x, "George the Giant", to head the KC herd after a long search for a top herd bull, horned or polled.

After seeing the calves by "George the Giant" at the W. K. Legge Ranch in Sask., I was convinced that this was the bull. Here was a 100% dehorning bull that was passing on to all his progeny great size, soundness, and uniformity from all types of cows. The first two females sold in the recent record KC sale for \$3,200 and \$2,500. This is only an indication of how popular this bull's progeny will become. Every cattleman who has seen him has been tremendously impressed.

So confident are we in this great line of cattle, we have purchased a half brother to "George the Giant" called Butte Lee Leader 64th x. This truly great young bull will be shown by KC later on this year. With the acquisition and use of both bulls, I cannot see anything but a great future for the KC herd.

Sincerely,

Gordon C. Philip, Manager
KC Shorthorns
Kansas City, Mo.

QUEBEC

Dear John:

I was pleased to learn how well Rothbury Dynamic Leader 17th x has developed since the Canadian International Bull Sale. Buying a young calf is always a gamble, but he appears to have all the performance and heritage to make a massive stock bull. Under your care, I know he will do well at the summer and fall shows. I look forward to seeing him again on June 14.

Mrs. W. C. Pitfield
Saraguay
Montreal, Quebec

MONTANA

Dear Harris:

We have just gotten our first calves by Thomas Leader 30th x and they are every bit what we had hoped for -- big, long and all polled. If they develop the size and scale of their sire, and combine the muscle and milking ability we have bred into our cow herd, we will have a real group of cattle to offer.

As stated in the enclosed clipping on the Stanford Performance test, the Thomas cattle again lead all British Beef breeds for the second consecutive year. This is the performance that sent us to the Thomas sale and it appears that it was a very wise move.

Best regards,

Mrs. Arch Allen
Livingston, Mont.

MANITOBA

Dear Bob:

We are very pleased with our last year's purchase of Butte Lee Fairy 7th x and are looking forward to her calving to the service of Weston Trademark 2nd x. Her 1968 heifer by Clipper King of U.S.A. x is a favorite with all of us. Both of these females should be top producers mated to Trademark. He has developed very well and we hope to come up with calves like your Leader 6th x and Leader 9th x, which Fairy produced, mated to Trademark's sire, TPS Coronet Leader 21st x.

Our first two calves by Trademark are here and look very promising. They are the image of their sire and should develop into real stock bulls. If we can keep adding cattle of the calibre of those we have bought from you, we can only improve. We will be in the seats come sale day. The "Leaders" are leaders in every sense of the word.

We would like to wish yourselves as well as the Thomases and Drapers "good selling" come June 14th.

Kindest regards,

Val & Bev Kjernisted
Stone-Oak Shorthorns
Stonewall, Man.

OKLAHOMA

Dear Bob and Wayne:

We are most pleased with our purchases from you last year. The Kinnaber Clipper King x bull calf out of Gloster Coronita x is getting tremendously thick and muscular and promises to make a huge stock bull. Kinnaber Leader 26th x has really been stepping it off. He has over a three pound a day lifetime gain and is presently gaining over 3.5 pounds a day on a 50-50 ration. He weighed 705 pounds at seven months; 840 pounds at eight and one-half months, and 950 pounds at ten months. He is developing tremendously well and has a great muscular rear quarter to go along with his enormous frame.

Clipper King of U.S.A. x has adapted to his new homes well and has been seen by many of America's top cattlemen of all breeds and acclaimed one of the best beef bulls of our day. His semen ranks in the top 12% of all beef and dairy bulls from both a quality and quantity standpoint. He is doing well now, seeing active service in our herd and the Seven T's herd and still weighing well over a ton. His three daughters we purchased from you and Martin Nold are growing very fast. One daughter, out of a Leader 21st x heifer is the fastest growing, most modern female I've ever seen. They have the length, thickness of rump, bone and style that characterizes the Clipper King of U.S.A. x bull. Our full sister to Leader 21st x has attracted much attention from all over this country for her modern type, size, femininity, muscling and reproductive superiority. Her second calf was born before her third birthday and is a tremendous prospect. Her outstanding qualities pretty well sum up your Leader heifers in the sale, don't they.

The Leaders and Clipper King of U.S.A. x are without doubt the cattle with the most potential for shaping the future of the breed.

Have a good sale, my friends.

Pa Do Farms
Don & Pat Stout
Kremlin, Okla.

SASKATCHEWAN

Dear Bob:

Just a line to let you know of the continuing success I am having with sons of Kinnaber Leader 6th x which I purchased from you.

At the recent Regina Bull Show and Sale, which is the largest in Canada, I am pleased to have shown the grand champion bull and the first-prize group-of-three. This is the first time polled bulls have won this honor at this show, not to mention a record high average price for three bulls at this sale.

I might also add these bulls went into some of the best herds on the continent - Remittall Cattle Co., Olds, Alta.; John Shuman & Sons, Byers, Colo., and Jack Dolman, Eatonville, Wash.

Wishing you the greatest success in your upcoming sale.

Sincerely,

Alf Dreger
Lorlie, Sask.

INDIANA

Dear John:

Now that Rothbury Royal Crusader x is reserve All-American, his show career is over and he's a working man. He is an active and vigorous breeder and has settled down well. We're more than satisfied and are anxious for his first calves to arrive.

Ellis Shafer
Royal Center, Ind.

MANITOBA

Dear Mr. Simons:

Having used two bulls in succession that we purchased from Thomas Farms we are more than satisfied with the results.

The first one was a big red bull, Thomas Jubilee 70 T x, which we used for four years, retaining all his females in our herd. These females are big cows and have given us high gaining offspring.

We are now using a roan bull, Thomas Leader 71 x. Most of his second crop of calves have now been dropped. We are planning to retain all his females to increase our herd. His females are not for sale but his sons are dandy young bulls which are for sale.

We also have bought females from the Thomases which have put a mark of improvement in our herd. The Leaders are easy to handle and are an all around great blood line of Shorthorn. We think the Leaders speak for themselves and Thomases have done a great job of improving.

Robert J. D. McCollum
Bonnie Meadows Shorthorn Farms
Boissevain, Man.

NORTH DAKOTA

Dear Harris:

I am very well pleased with the way Rothbury Wanderer has developed. He looked good the day we bought him and has looked good while in the pasture with the cows. He has gained, or should I say, grown out remarkably well and is still growing. He will weigh 2,000 pounds by 30 months of age on May 14. I don't know when he will stop growing.

His calves look very promising, which is the main thing. Everyone who has seen him and his calves is very favorably impressed and is already drooling for his bull calves. He has already been classified AA and the classifier was sure he would be AAA when old enough.

Sincerely,

Wayne Clark
Churchs Ferry, W.D.

MANITOBA

Dear Harris:

I am very pleased and satisfied with Butte Lee Leader 63rd x. He is going to be a tremendous good, big bull. He will weigh over 1,800 pounds at two years of age. I am just starting to get his calves . . . they look very promising.

Sincerely,

John H. McKee
Neepawa, Man.

SASKATCHEWAN

Dear Harris:

We have purchased two sons of TPS Coronet Leader 21st x from Kinnaber which have given us large, growthy, well-muscled calves, most of them polled. Both Leader bulls were running with our herds at 16 months of age and still developed into large, growthy animals. Leader bulls and their calves are very docile, easy to handle in the herd and corral.

W. J. Small & Son, Craven, Sask.
Barry Andrew & Sons, Regina, Sask.

OKLAHOMA

Dear Bob:

We want to tell you how proud and pleased we are with our purchase of Clipper King of U.S.A. x. Even after his long trip from Canada to Oklahoma he still tipped the scale at 2,100 pounds.

At Coddings, where we had his semen collected, they said it was some of the strongest semen they had collected. There have been breeders of all breeds come to the farm to see Clipper King of U.S.A. x and they all agree that he is the ultimate in a beef bull.

Vic Taylor
Seven T's Polled Shorthorns
Yukon, Okla.

SOUTH DAKOTA

Dear Gordons:

As you already know we have been very happy with the female purchases made from Kinnaber Stock Farm. It really gives us a warm feeling to know that you will always "back up" the cattle that you have sold.

However it would be impossible to be more elated than we are by the purchase of "Weston Trademark 3rd x" - - our "Leader 21st" son. He weighed 1,080 pounds at 365 days of age. We exposed him to about 40 females in a large pasture eight miles from headquarters. When we brought him home in mid-October he weighed 1,290 pounds. We presently have about 30 calves on the ground by him. Our many visitors through the fall and winter have been extraordinarily impressed by him and high in their praise.

John E. Sutton, Jr., a leading Hereford breeder of the North Central states, maintains that "Weston Trademark 3rd x" is the trimmest bull he has seen for a good many years; with his extreme length and walking style he is easily one of the very top bulls of any breed in this area. He is particularly impressed with the feet and legs on this animal, which he considers very important features in range country. We consider this a very high compliment as Mr. Sutton put out over 200 bulls into many states and Canada in a nationally recognized Hereford sale of the year.

We feel that "Leader 21st" and his offspring certainly have given us a boost and is repopularizing Shorthorns in this area. Weston Trademark 3rd x certainly looks to be the best purchase we have made in Shorthorns.

With kindest regards,

Martin Nold
Gettysburg, S.D.

MINNESOTA

Dear Harris:

The bull we purchased from Thomas Farms has come along real well this winter. So far I have just had one calf from him and will be getting more soon.

Clarence Mohn
Cottonwood, Minn.

MANITOBA

Dear Wayne and Bob:

I am more than pleased with the TPS Coronet Leader cattle I have purchased from you. They have shown the ability to grow and have the length and smoothness so much needed in Shorthorns today. My first Leader daughter has raised the best calf on the farm to date.

Weston Trademark 2nd x, our Leader 21st x son, is continuing to grow into a modern stock bull, and as you know one of the leading herds on the continent is using his service. We now have two calves by him which look quite promising.

We are also awaiting the arrival of a few Leader 21st x calves, the first from a good-producing cow purchased in your sale last year.

Keith Croy
Stonewall, Man.

ALBERTA

Dear Bob and Wayne:

We are proud to be the owners of Kinnaber Leader 10th x. We had him displayed at the Edmonton Bull sale this last March. Whoever looked at him had nothing but good comments to make. At 33 months he weighed a ton in breeding condition. He is deep, thick, long and heavy-quartered. His calves from Calancie cows sure look promising. The heifers we bought at your sale are doing real well. Our Clipper King calf should make an outstanding herd sire. We just had a terrific white Clipper King bull calf out of our \$1,500 heifer.

Good luck! with your sale, we'll see you then.

KINNABER MR. THIEMAN x —He is every bit as proud and promising as this picture. We think he is the best calf ever born at Kinnaber by the sire of sires, TPS Coronet Leader 21st x. We named this calf Kinnaber Mr. Thieman x in honor of Lewis and Harold Thieman, who bred TPS Coronet Leader 21st x.

Kinnaber Mr. Thieman is the result of the planned mating of his dam, that is by the 2,200 pound TPS Coronet Leader 4th x by Coronet Max Leader 3rd x that was exported to the Bapton herd in Scotland.

We found that a son of Leader 4th x crossed well with Leader 21st x daughters so we felt an even greater cross would be Leader 21st x with Leader 4th x daughters, as they are tremendous brood cows. With Leader 21st's prepotent siring ability, we felt something great might result. It has worked beyond our expectations. Kinnaber Mr. Thieman is one of the resulting calves. What a stock bull potential he has!

See him at sale time. His use is already planned in the Kinnaber herd, but someday we might be able to share him with you.

“CHOICE OF REMITALL” SALE

Olds, Alta.

Convenient rail and air connections are available for those traveling to Remitall from Hartney or Brandon. For complete details see pages 6 and 7.

June 17

ROTHNEY FARMS OPEN HOUSE

A. R. Cross' Rothney Farms, located on Route 8, Calgary (near Midnapore) is one of the breed's most famous herds. You are all cordially invited there for open house and barbecue on June 17, the day following the Remitall sale. A brief program is planned together with a display of the entire Rothney herd. You can use the same Calgary motel as headquarters for both events.

This will be one of the biggest and most rugged bulls offered this year. He has the tremendous size demanded by so many and can head any leading herd. We retain show rights until the 1969 Regina International Show in August. Sired by one of the 21st x best breeding sons that did a tremendous job in the Small and Andrews herds at Craven, Sask. He is from one of the best cow families maintained over the years by the Smalls.

MIGHTY MR. MODERN TO SELL AT AUCTION!

KINNABER LEADER 5th x, "Mighty Mr. Modern"

**The Most Widely
Anticipated Sale
Of The Year**

**THOMAS
GORDON
DRAPER
SALE**

JUNE 14

**At Thomas Farms
Hartney, Manitoba**

One of the biggest stock bulls of the day -- a 100 percent dehorner!

KINNABER LEADER 5th x, "Mighty Mr. Modern," is one of the truly great bulls of the day. His first son topped the Canadian International Bull Sale at \$6,000 for two-thirds interest; a half-brother topped all breeds in the Stanford Performance Tested Bull Sale, Stanford, Mont., at \$7,200 for two-thirds interest; a son

was second top at Stanford at \$2,500 for two-thirds.

His daughters are the most uniformly good Polled Shorthorn females seen anywhere by expert judges. His sons to date have averaged \$1,958. See pages 52, 53 and 54 of the Thomas-Gordon-Draper catalog for further information.

The "Leaders" In Great Demand at Stanford!

FLASH!!!

Results of the 1969 Stanford, Montana Testing Station prove the Leader cattle are the right kind and very much in demand.

25 1/3 "Leader-bred" Polled Shorthorn bulls totalled \$30,450 to average \$1,202.

On test, the Shorthorns, for the second year in a row, topped all the British breeds on index and rate of gain. The top-gaining bull on test of all breeds

was a son of TPS Coronet Leader 49th x from Thomas Farms, Hartney, Man., who had the most bulls on test and an average gain index of 111.3.

The top-selling bull of the sale was a son of TPS Coronet Leader 21st x from Gordon Bros., Souris, Man.

The second top-selling bull in the sale was a son of Kinnaber Leader 5th x from Draper Bros., Elgin, Man.

Follow the shadow line on "MIGHTY MR. MODERN x" — That's the MEAT LINE. He weighed 2,260 pounds one week before his third birthday. He'll weigh 2,500 pounds at maturity. A one-fourth breeding interest only sells. The purchaser of the above breeding interest will have one-fourth of the total annual semen production reserved for his use. All semen shipping charges will be borne by the purchaser. The purchaser will be charged pro-rata fee for collection, processing and storage of his semen bank. By the time of the sale we hope to have 2,000 vials of semen in storage. It is excellent semen and freezes well.
